Held in Highest Esteem by All Jun 27 2019 As an orphan, William Burnham Chilvers did not have parents to coach him through his journey of life that took him across the sea from Great Britain to the United States. Shortly after immigrating, he found a home in the army and campaigned with the 95th Illinois Infantry. Years of hard marching and tough fighting carried him through the Vicksburg Campaign and into Louisiana and the Red River Campaign. He served in Missouri, then at Nashville and Brice's Crossroads, before finishing his career assaulting the Confederate works near Mobile, Alabama. Through it all, Chilvers was a strong abolitionist and sympathetic to the plight of slaves. He wrote about the atrocities faced by African Americans at the hands of Southern whites--as well as by his fellow Union soldiers. His letters and the editors' research tell stories of massacres, combat, and idealism in the face of the brutal realities of war. Will Chilvers and the 95th Illinois Infantry fought to victory, but his experience transcends mere combat and instead reveals the development of a remarkable man whose compassion and humanity rose above the ugliness of the Civil War.

Chiang Kai-shek Versus Mao Tse-tung: The Battle for China

1946-1949 May 07 2020 A vivid portrait of the final years of the civil war between the Chinese Nationalists and Communists, including many previously unpublished photos. This volume in the Images of War series is the first photographic history of the Chinese Civil War, fought between Chiang Kai-shek's Nationalists and the Communists of Mao Tse-tung, which decided the future of modern China. A selection of over two hundred archive photographs, many of which have not been published before, depict the battle for power that took place across the breadth of the country. The armies, air forces, and navies of the opposing sides are shown in a sequence of graphic images, as is the ordeal of the long-suffering Chinese civilians who were caught up in a conflict that cost millions of lives. Detailed accompanying text describes the make-up of the Nationalist and Communist forces, and their contrasting strategies, tactics, and leadership. This is a visceral and concise introduction to a pivotal conflict that has left an indelible mark on the China of today—and on the rest of the world.

The New Face of War Aug 22 2021 As American and coalition troops fight the first battles of this new century -- from Afghanistan to Yemen to the Philippines to Iraq -- they do so in ways never before seen. Until recently, information war was but one piece of a puzzle, more than a sideshow in war but far less than the sum total of the game. Today, however, we find information war revolutionizing combat, from top to bottom. Gone are the advantages of fortified positions -- nothing is impregnable

any longer. Gone is the reason to create an overwhelming mass of troops -- now, troop concentrations merely present easier targets. Instead, stealth, swarming, and "zapping" (precision strikes on individuals or equipment) are the order of the day, based on superior information and lightning-fast decision-making. In many ways, modern warfare is information warfare. Bruce Berkowitz's explanation of how information war revolutionized combat and what it means for our soldiers could not be better timed. As Western forces wage war against terrorists and their supporters, in actions large and small, on several continents, *The New Face of War* explains how they fight and how they will win or lose. There are four key dynamics to the new warfare: asymmetric threats, in which even the strongest armies may suffer from at least one Achilles' heel; information-technology competition, in which advantages in computers and communications are crucial; the race of decision cycles, in which the first opponent to process and react to information effectively is almost certain to win; and network organization, in which fluid arrays of combat forces can spontaneously organize in multiple ways to fight any given opponent at any time. America's use of networked, elite ground forces, in combination with precision-guided bombing from manned and unmanned flyers, turned Afghanistan from a Soviet graveyard into a lopsided field of American victory. Yet we are not invulnerable, and the same technology that we used in Kuwait in 1991 is now available to anyone with a credit card and access to the Internet. Al Qaeda is adept in the new model of war, and has searched long and hard for weaknesses in our defenses. Will we be able to stay ahead of its thinking? In Iraq, Saddam's army is in no position to defeat its enemies -- but could it defend Baghdad? As the world anxiously considers these and other questions of modern war, Bruce Berkowitz offers many answers and a framework for understanding combat that will never again resemble the days of massive marches on fortress-like positions. *The New Face of War* is a crucial guidebook for reading the

headlines from across our troubled planet.

What Every Person Should Know About War Feb 25 2022
Acclaimed New York Times journalist and author Chris Hedges

offers a critical -- and fascinating -- lesson in the dangerous realities of our age: a stark look at the effects of war on combatants. Utterly lacking in rhetoric or dogma, this manual relies instead on bare fact, frank description, and a spare question-and-answer format. Hedges allows U.S. military documentation of the brutalizing physical and psychological consequences of combat to speak for itself. Hedges poses dozens of questions that young soldiers might ask about combat, and then answers them by quoting from medical and psychological studies. • What are my chances of being wounded or killed if we go to war? • What does it feel like to get shot? • What do artillery shells do to you? • What is the most painful way to get wounded? • Will I be afraid? • What could happen to me in a nuclear attack? • What does it feel like to kill someone? • Can I withstand torture? • What are the long-term consequences of combat stress? • What will happen to my body after I die? This profound and devastating portrayal of the horrors to which we subject our armed forces stands as a ringing indictment of the glorification of war and the concealment of its barbarity.

The First World War Jun 19 2021 The years 1914 to 1918 saw Europe engaged in a conflict involving a greater area and a greater number of men than history had ever before recorded. In this book, Captain Cyril Falls, known in British academic and governmental circles as an expert in military history, discusses the military side of World War I in the light of its battles, tactics and weapons; its problems of supply and transport; its armies and their commanders. The engagements in the many theaters of war in Europe, Asia and Africa are described in vivid detail, but particular attention is focused on the Western Front, where the principal and decisive battles were fought. Although it was on land that the conclusive victories were achieved, the place of sea power and of the new type of warfare waged in the air is not ignored. The role played by civilian politics is covered as well, particularly in situations where it had direct bearing on the

fighting--such as in Sarajevo in 1914 where a spark touched off the Central European powder keg and signaled the beginning of the war; the political considerations which caused the US as well as Romania, Bulgaria, and Italy to enter the war late; and the revolution which caused Russia to leave it early. In telling how World War I was fought and why it developed as it did, Captain Falls decisively refutes the notion that World War I was an interlude of senseless and irresponsible slaughter during which military art stood still. He reminds us that it was a war remarkable for the idealistic spirit in which it was fought. Though the unprecedented, world-wide scale of battle, and the deadlock on the Western Front, taxed the skill of military leadership sorely, the war produced its great leaders: Haig, Allenby, Maude, Jellicoe, Beatty, Joffre, Foch, Petain, Pershing, Liggett, Sims, Falkenhayn, Hindenburg, Hipper, Conrad von Hotzendorf, and Mustapha Kemal. Their achievements as well as the indomitable spirit of the men they commanded are remembered here.

Why We Fought Jul 09 2020 *Why We Fought* is a timely and provocative analysis that examines why Americans really chose to sacrifice and commit themselves to World War II. Unlike other depictions of the patriotic “greatest generation,” Westbrook argues that, strictly speaking, Americans in World War II were not instructed to fight, work, or die for their country—above all, they were moved by private obligations. Finding political theory in places such as pin-ups of Betty Grable, he contends that more often than not Americans were urged to wage war as fathers, mothers, husbands, wives, lovers, sons, daughters, and consumers, not as citizens. The thinness of their own citizenship contrasted sharply with the thicker political culture of the Japanese, which was regarded with condescending contempt and even occasionally wistful respect. *Why We Fought* is a profound and skillful assessment of America's complex political beliefs and the peculiarities of its patriotism. While examining the history of American beliefs about war and citizenship, Westbrook casts a larger light on what it means to be an American, to be patriotic, and to willingly go to war.

They Fought Like Demons Oct 24 2021 Popular images of women during the American Civil War include self-sacrificing nurses, romantic spies, and brave ladies maintaining hearth and home in the absence of their men. However, as DeAnne Blanton and Lauren M. Cook show in their remarkable new study, that conventional picture does not tell the entire story. Hundreds of women assumed male aliases, disguised themselves in men's uniforms, and charged into battle as Union and Confederate soldiers—facing down not only the guns of the adversary but also the gender prejudices of society. *They Fought Like Demons* is the first book to fully explore and explain these women, their experiences as combatants, and the controversial issues surrounding their military service. Relying on more than a decade of research in primary sources, Blanton and Cook document over 240 women in uniform and find that their reasons for fighting mirrored those of men—patriotism, honor, heritage, and a desire for excitement. Some enlisted to remain with husbands or brothers, while others had dressed as men before the war. Some so enjoyed being freed from traditional women's roles that they continued their masquerade well after 1865. The authors describe how Yankee and Rebel women soldiers eluded detection, some for

many years, and even merited promotion. Their comrades often did not discover the deception until the “young boy” in their company was wounded, killed, or gave birth. In addition to examining the details of everyday military life and the harsh challenges of -warfare for these women—which included injury, capture, and imprisonment—Blanton and Cook discuss the female warrior as an icon in nineteenth-century popular culture and why -twentieth-century historians and society ignored women soldiers’ contributions. Shattering the negative assumptions long held about Civil War distaff soldiers, this sophisticated and dynamic work sheds much-needed light on an unusual and overlooked facet of the Civil War experience.
