Judges in Street Clothes May 07 2020 To maintain public confidence in the judiciary, judges are governed by the strictest of ethical codes. Codes of conduct not only circumscribe a judge's official conduct but also restrict every aspect of a judge's off-bench life. Judges in Street Clothes: Acting Ethically Off-the-Bench provides an in-depth analysis of the rules limiting the charitable, educational, religious, fraternal, civic, and law-related extrajudicial activities of state and federal judges. This comprehensive, heavily footnoted resource examines: (1) the historical development of the American Bar Association's four model judicial codes with an emphasis on the rules regulating the charitable, educational, religious, fraternal, civic, and law-related activities of judges; (2) the State's interests in restricting the extrajudicial activities of judges; (3) the strengths and weaknesses of rules governing a judge's off-bench activities; (4) how state and federal courts, judicial disciplinary commissions, and judicial ethics advisory committees have interpreted judicial conduct rules; (5) best practices for judges; and (6) the constitutionality of the restrictions on a judge's charitable, educational, religious, fraternal, civic, and law-related undertakings. From both a theoretical and practical standpoint, this book addresses the ethical implications of the everyday activities of judges. How far may a judge go in expressing personal opinions about social and legal issues? What are the limits on a judge's use of social media? Is it permissible for a judge to receive an award from a victim advocacy group? Do the rules permit a judge to speak at a church or bar association's fund-raising dinner? May judges teach prosecutors and law enforcement officials how to improve their job performance? May a judge appear in an informational video for the judge's alma mater? Former Judge Raymond J. McKoski discusses these and a host of other everyday situations judges face in their attempts to remain involved community members while promoting public confidence in the independence, integrity, and impartiality of the judiciary.

Brahms Studies Jun 19 2021 A publication of the American Brahms Society, Brahms Studies publishes essays on the life, work, and artistic milieu of Johannes Brahms. Each volume collects the best in Brahms scholarship, including criticism, analysis, theory, biography, archival and documentary studies, and translations of important studies that have appeared in foreign languages.

Contemporary American Composers Sep 10 2020 In the preface to his work, Rupert Hughes explains his motivation and method for writing this historical account of American composers. Being a musician himself, he was interested to know who of merit was a native composer. He found it difficult to obtain such information, so he resolved to research contemporary composers, listen to and read their scores and make his own judgements. This wide-ranging book is the result.

Twentieth-Century Organ Music Feb 02 2020 This volume explores twentieth-century organ music through in-depth studies of the principal centers of composition, the most significant composers and their works, and the evolving role of the instrument and its music. The twentieth-century was a time of unprecedented change for organ music, not only in its composition and performance but also in the standards of instrument design and building. Organ music was anything but immune to the complex musical, intellectual, and socio-political climate of the time. Twentieth-Century Organ Music examines the organ's repertory from the entire period, contextualizing it against the background of important social and cultural trends. In a collection of twelve essays, experienced scholars survey the dominant geographic centers of organ music (France, the Netherlands, Scandinavia, the United States, and German-speaking countries) and investigate the composers who made important contributions to the repertory (Reger in Germany, Messiaen in France, Ligeti in Eastern and Central Europe, Howells in Great Britain). Twentieth-Century Organ Music provides a fresh vantage point from which to view one of the twentieth century's most diverse and engaging musical spheres.

The National Union Catalog Jan 27 2022

Military Tribunals and Presidential Power Jul 21 2021 "Shows that the breadth of presidential power in time of war comes at the cost of legislative and judicial control--and that military tribunals represent a concentration of power in the executive branch that the United States would be quick to condemn in other countries. Although the use of military tribunals can be necessary and even effective in times of war, Fisher contends that these courts present a grave danger to open government and the separation of powers. Citing the constitutional provision vesting Congress with the authority to create tribunals, Fisher addresses the threats posed by the dramatic expansion of presidential power in time of war--and the meek efforts of Congress and the judiciary to curb it. Fisher cuts to the bone of today's controversies and sounds an alarm for maintaining the checks and balances we value as a nation." --Descripción del editor.

Complete violin sonatas No 12 2020 Beethoven's ten violin sonatas, time-honored favorites of violinists, pianists, and their audiences, reflect the great composer's determination to make the interrelationship between the violin and the piano a more intimate one, and to create a more even and intricate balance between the two instruments than had previously existed in the genre. Ranging in mood and style from the brilliant and virtuosic "Kreutzer" Sonata to the pastoral, lyrical "Spring" Sonata, they include: Sonata No. 1 in D Major, Op. 12, No. 1; Sonata No. 2 in A Major, Op. 12, No. 2; Sonata No. 3 in E-flat Major, Op. 12, No. 3; Sonata No. 4 in A Minor, Op. 23; Sonata No. 5 in F Major ("Spring"), Op. 24; Sonata No. 6 in A Major, Op. 30, No. 1; Sonata No. 7 in C minor, Op. 30, No. 2; Sonata No. 8 in G Major, Op. 30, No. 3; Sonata No. 9 in A Minor ("Kreutzer"), Op. 47; Sonata No. 10 in G Major, Op. 96. All ten of these beautiful and challenging masterworks are reprinted here from the authoritative edition prepared by Breitkopf & Hartel. Beautifully printed and sturdily bound, this handsome volume offers violinists, pianists, and music lovers the opportunity to study and enjoy the scores in one convenient, inexpensive source. "

Dmitri Shostakovich Catalogue Oct 31 2019 Dmitri Shostakovich (1906-75) was one of the greatest composers of the 20th century, as well as the first major Soviet composer. In the fourth edition of Dmitri Shostakovich Catalogue: The First Hundred Years and Beyond, Derek C. Hulme names and describes all known musical compositions of the Russian composer. More than 175 major works are annotated and discussed, including such comprehensive details as titles and subtitles, dates of composition, instrumentation, and duration; information on dedications and premieres; arrangements by the composer and others; publication details; notes on bibliographical references and the location of the autograph score; and comprehensive chronological lists of vinyl, compact disc, and visual recordings. The entries are presented chronologically and by opus number, while indexes of names and compositions provide full accessibility. Several appendixes supplement the volume, guiding readers to further information in published sources and providing information on the composer's film, radio, television, and theatre productions; his abandoned projects and obscure works; and his recordings, including box sets and special USSR recordings. An appendix also discusses the monogram DSCH, a musical motif based on his name that permeates his compositions. This new edition also includes a comprehensive chronological chart of Shostakovich's works and historical events and several plates of memorabilia.

Conceptualizing Maritime & Naval Strategy May 31 2022 Großmachtkonflikte, die Zukunft von sicherheitspolitischen Institutionen sowie transnationalen Generationenherausforderungen bergen eine neue globale Unsicherheit. Vor diesem Hintergrund bekommen maritime Sicherheit und Seestreitkräfte sowie deren Einordnung im außenpolitischen Werkzeugkasten eine zunehmende Bedeutung. Was sind die Rollen und Einsatzaufgaben von Seemacht, und wie haben Staaten und ihre Institutionen maritime Ziele, Mittel und Wege konzeptualisiert? Dieser Sammelband bringt ausgewiesene Experten aus den USA, Europa und Asien zusammen, die Ihre Perspektive auf maritime Strategie teilen. Das Buch dient gleichzeitig die Festschrift für Peter M. Swartz, Kapitän zur See a.D. der US-Marine, der seit seiner Arbeit als einer der Autoren der "Maritime Strategy" (1980er) als Mentor, Freund, intellektueller Leuchtturm und vor allen Dingen als Spiritus Rektor wesentlich zur Schärfung des Verständnisses von Seestrategie in den globalen Beziehungen beigetragen hat. Mit Beiträgen von James Bergeron, Sebastian Bruns, Seth Croysey, Larissa Forster, Michael Haas, John Hattendorf, Peter Haynes, Andrzej Makowski, Amund Lundesgaard, Narushige Michishita, Martin Murphy, Sarandis Papadopoulos, Nilanthi Samaranyake, Jeremy Stöhs, Eric Thompson, Geoffrey Till, Sarah Vogler, Steve Wills.

A Full-Value Ruble Nov 05 2022 A new history shows that, despite Marxism's rejection of money, the ruble was critical to the Soviet Union's promise of shared prosperity for its citizens. In spite of Karl Marx's proclamation that money would become obsolete under Communism, the ruble remained a key feature of Soviet life. In fact, although Western economists typically concluded that money ultimately played a limited role in the Soviet Union, Kristy Ironside argues that money was both more important and more powerful than most histories have recognized. After the Second World War, money was resurrected as an essential tool of Soviet governance. Certainly, its importance was not lost on Soviet leaders, despite official Communist Party dogma. Money, Ironside demonstrates, mediated the relationship between the Soviet state and its citizens and was at the center of both the government's and the people's visions for the maturing Communist project. A strong ruble—one that held real value in workers' hands and served as an effective labor incentive—was seen as essential to the economic growth that would rebuild society and realize Communism's promised future of abundance. Ironside shows how Soviet citizens turned to the state to remedy the damage that the ravages of the Second World War had inflicted upon their household economies. From the late 1940s through the early 1960s, progress toward Communism was increasingly measured by the health of its citizens' personal finances, such as greater purchasing power, higher wages, better pensions, and growing savings. However, the increasing importance of money in Soviet life did not necessarily correlate to improved living standards for Soviet citizens. The Soviet government's achievements in raising the people's material welfare continued to lag behind the West's advances during a period of unprecedented affluence. These factors combined to undermine popular support for Soviet power and confidence in the Communist project.
