Wives, Fiancées, and Side-Chicks of Hotlanta Feb 22 2022 From Sheree Whitfield, one of the stars of Bravo TV's hit show "The Real Housewives of Atlanta," comes a debut novel that's a page-turning mix of rumor, fiction, and a tantalizing dash of reality. Sasha Wellington has put herself on the fast track to success. Fresh out of college, she's got her career as a fashion designer and entrepreneur all planned out. Her only wild card is choosing which city to launch from. When fate points her to Atlanta, she sets out to make her dreams come true. Before she knows it, Sasha's befriended by two rival BFFs. First there's Norman, savvy stylist to Atlanta's stars, from the A-list on down. Then there's Nina, an outrageous personality with a questionable nightlife. Between their antics, Sasha's beyond grateful for her coworker, Casey. Married to an NBA player, Casey's got class. But there's more than meets the eye to being a baller's wife. And the more time Sasha spends among the movers and shakers, the clearer it gets that just like on reality TV, the truth lies behind-the-scenes. Still, she's not worried about getting caught up in the drama until she's romanced by a baller of her own. Can she stick to her game plan, or will Hotlanta derail her future and reveal a side of herself even she didn't know existed?"

Good-bye, Piccadilly Aug 26 2019 Though the women came to the U.S. from all parts of the British Isles, they were an unusually homogeneous group, averaging 23 years of age, from working- or lower-middle-class families and having completed mandatory schooling to the age of fourteen. For the most part they emigrated alone and didn't move into an existing immigrant population.

I Hate Shoes May 28 2022 Growing up a sun-drenched kid in Florida, it was a rude awakening when I became a desk-driving engineer in frigid Boston. So began a five-year odyssey to return home via sailboat, filled with adventure, tragedy, love, and heartbreak. From humble starts in questionable boats to high seas sailing from Hawaii to Alaska, and ultimately restoring a 50-year-old world-cruising boat, no, the journey wasn't always easy, but it was unquestionably worth it in the end. You only get one spin around this merry-go-round, you better make it count.

Gender, rhetoric and regulation Nov 29 2019 The Civil Service and the London County Council employed tens of thousands of women in Britain in the early twentieth century. As public employers these institutions influenced both each other and private organisations, thereby serving as a barometer or benchmark for the conditions of women's white-collar employment. Drawing on a wide range of archival sources – including policy documents, trade union records, women's movement campaign literature and employees' personal testimony – this is the first book-length study of women's public service employment in this period. It examines three aspects of their working lives – inequality of pay, the marriage bar and inequality of opportunity – and demonstrates how far wider cultural assumptions about womanhood shaped policies towards women's employment and experiences. Scholars and students with interests in gender, British social and cultural history and labour history will find this an invaluable text.

A Scab is no Son of Mine Oct 28 2019 The writing of this book came as many friends and acquaintances told me that I should write a book on my experiences of the miners' strike in 1984-85 and how it changed my life forever.. I never gave this idea much thought until early in 2013 when a BBC TV journalist suggested that it would make good reading. I realised that the 30th Anniversary was very soon to be upon us, and felt that this would be the end for me with regard to TV interviews about the family break up caused by the Miner's strike. The thirty year mark seemed a good a point in time as any to round it off as it were. Having said that I could find myself doing interviews at the Fortieth anniversary. I could not believe even now just how raw this industrial dispute would feel even after all this time. When one looks at other industrial disputes you could be forgiven for not remembering one Two years ago let alone Thirty. The reason I think that the miners' strike lasted so long in people's hearts and minds was that it wasn't just a job, it was a way of life, a heritage, an industry that was so vital to the economic wellbeing of Great Britain. Whatever your views on the miner's strike this book is to give you an insight into the experiences of a normal unassuming coal miner and how his world was turned upside down and thrown into the public eye through the normal act of going to work but with a twist doing a non-normal act in a very unordinary climate. Crossing a picket line of over 800 angry miner's is not an easy thing to do. The dilemma I found myself in was quite simple, I did not believe that a strike would solve anything, I felt that holding the country to ransom was immoral. The casing point that made the decision once and for all was Arthur Scargill's refusal to give us, his member's, the fundamental right of a national ballot. Although I was against the strike from the outset had we been given a national ballot and had that ballot resulted in a majority in favour of strike action then I like all the other miners that crossed the picket lines in 1984 would be out on strike without question. That after all is democracy. Men and Women in English history have died fighting for the right of a democratic vote, in a lesser way that is what I and others like me did, we fought for democracy. My closing remark on that, is that the only way to have kept the pits open albeit lesser in numbers was to work them, not abandon them for a whole year.
