**The Jungle Book: Mowgli's Adventures** Aug 11 2021 Rudyard Kipling's tale of a young boy lost in

the jungles of India introduces young children to the magic of the original classic tale. The Jungle Book: Mowgli's Adventures adapts Rudyard Kipling's timeless tale of a young boy lost in the jungles of India for young children. This delightfully written and illustrated book focuses on the magic of the jungle and the one-of-a-kind characters and fantastical situations that Mowgli finds himself in. The Jungle Book: Mowgli's Adventures tells the simple story of Mowgli, who is raised by Mother and Father Wolf and taught the ways of the jungle by Baloo the bear. While this is a faithful introduction to the classic, it doesn't attempt to cover all the action from the original story and its adaptations-the story focuses on the parts children will understand and enjoy. The Jungle Book: Mowgli's Adventures is a magical introduction children will recall when they are older and ready for the original work.

**Alignment and Ergativity in New Indo-Aryan Languages** Aug 31 2020 The volume investigates the different alignment patterns in Indo-Aryan and shows that the variation of alignment patterns in Indo-Aryan goes beyond the opposition between accusativity and ergativity. The book includes a thorough discussion of the concepts and terminology relating to alignment patterns. The study draws extensively on new language data from Indo-Aryan. It includes discussions of examples taken from Hindi, Sanskrit, Apabhramsa, Asamiya, Bangla, Oriya, the Bihari languages, Nepali, Kashmiri, Sindhi, Siraiiki, Poguli, Gujarati, Punjabi, Marwari, Harauti, the Hindi varieties, and Shina. The volume offers a comprehensive overview of various alignment patterns in Indo-Aryan based on a wide range of data. By focusing on lesser known Indo-Aryan languages, the study questions the central position of Hindi-Urdu in the research on ergativity. Each language is treated in its own right, with a focus on language-specific data and analyses, rather than relying on a notional format that starts with pre-established linguistic concepts. In accordance with this methodology, much attention is paid to "indirect" connections between ergative constructions and other syntactic and

semantic patterns in the various languages.

**Brother & Sister** Feb 23 2020 NEW YORK TIMES BESTSELLER When they were kids in the suburbs of Los Angeles in the 1950s, Diane Keaton and her younger brother, Randy, were best friends and companions. But as they grew up, Randy became troubled, then reclusive. Before he was thirty, he was divorced, an alcoholic, a man who couldn't hold on to full-time work—his life a world away from his sister's, and from the rest of their family. Now Diane delves into the nuances of their

shared, and separate, pasts to confront the difficult question of why and how Randy ended up living his life on “the other side of normal.” In beautiful and fearless prose intertwined with journal entries, letters, and poetry—much of it Randy’s own—and supplemented by personal photographs and artwork, this insightful, heartfelt memoir contemplates the inner workings of a family, the ties of love and responsibility that hold it together, and the special bond between siblings—even those who are pulled far apart.

*Pakistan Under Siege* Dec 03 2020 Over the last fifteen years, Pakistan has come to be defined exclusively in terms of its struggle with terror. But are ordinary Pakistanis extremists? And what explains how Pakistanis think? Much of the current work on extremism in Pakistan tends to study

extremist trends in the country from a detached position—a top-down security perspective, that renders a one-dimensional picture of what is at its heart a complex, richly textured country of 200 million people. In this book, using rigorous analysis of survey data, in-depth interviews in schools and universities in Pakistan, historical narrative reporting, and her own intuitive understanding of the country, Madiha Afzal gives the full picture of Pakistan’s relationship with extremism. The author lays out Pakistanis’ own views on terrorist groups, on jihad, on religious minorities and non-Muslims, on America, and on their place in the world. The views are not radical at first glance, but are riddled with conspiracy theories. Afzal explains how the two pillars that define the Pakistani state—Islam and a paranoia about India—have led to a regressive form of Islamization in Pakistan’s narratives, laws, and curricula. These, in turn, have shaped its citizens’ attitudes. Afzal traces this outlook to Pakistan’s unique and tortured birth. She examines the rhetoric and the strategic actions of three actors in Pakistani politics—the military, the civilian governments, and the Islamist parties—and their relationships with militant groups. She shows how regressive Pakistani laws instituted in the 1980s worsened citizen attitudes and led to vigilante and mob violence. The author also explains that the educational regime has become a vital element in shaping citizens’ thinking. How many years one attends school, whether the school is public, private, or a madrassa, and what curricula is followed all affect Pakistanis’ attitudes about terrorism and the rest of the world. In the end, Afzal suggests how this beleaguered nation—one with seemingly insurmountable problems in governance and education—can change course.

*Handbook of African Medicinal Plants, Second Edition* Jan 16 2022 With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

He focuses on the inherent tension between the movement's idealized vision of the nation as a holy community based in Islamic law and its political agenda of socioeconomic change for Pakistani society. Nasr's work goes beyond the exploration of a single party to examine the diverse sociopolitical roots of contemporary Islamic revivalism, challenging many of the standard interpretations about political expressions of Islam.

**Sahaja Yoga** Oct 21 2019 Shri Mataji writes that “India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it.” This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. “The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form.”

**Walk the Talk** Dec 23 2019 In the fourteen years of NDTV's Walk The Talk Shekhar Gupta has interviewed more than 600 stellar guests-an outstanding feature for one of Indian TV news channel's most respected shows is the wide diversity of its guests. These range from heads of states to national, regional and international politicians and public figures, from Indian and global film stars

to Nobel Laureates, scientists, economists, sports stars (not limited to cricket), spiritual gurus, business tycoons, philanthropists and, of course, activists. This book focuses exclusively on political leaders and public figures. Many of these conversations are path-breaking, and some extremely rare. For example, leaders like Sonia Gandhi and former prime minister P.V. Narasimha Rao have never before engaged in freewheeling, recorded conversations in such detail. Others have broken new ground since-Narendra Modi, L.K. Advani, Pranab Mukherjee, Mayawati and even M. Karunanidhi. There are also global thought leaders and heads of state: David Cameron, Henry Kissinger, and Pushp Kamal Dahal 'Prachanda', among others. There is also the rarest of rare interviews with the former RSS chief K.S. Sudarshan. It was challenging to choose just twenty-five political personalities and voices to feature in this selection. And one criterion has been to try and pick those conversations that mark political shifts and change. Hopefully, these will help provide an understanding of recent political history, and how we have reached the point we are at today, in the words of these very significant and interesting people.

Indian Sex Life Oct 13 2021 "During the colonial period, Indian intellectuals--philologists, lawyers, scientists and literary figures--all sought to hold a mirror to their country. Whether they wrote novels, polemics, or scientific treatises, all sought a better understanding of society in general and their society in particular. Curiously, female sexuality and sexual behavior play an outside role in their writing. The figure of the prostitute is ubiquitous in everything from medical texts and treatises on racial evolution to anti-Muslim polemic and studies of ancient India. In this book, Durba Mitra argues that between the 1840s and the 1940s, the new science of sexuality became foundational to the scientific study of Indian social progress. The colonial state and an emerging set of Bengali male intellectuals extended the regulation of sexuality to far-reaching projects that sought to define what society should look like and how modern citizens should behave. An exploration of this history of social scientific thought offers new perspectives to understand the power of paternalistic and deeply violent claims about sexual norms in the postcolonial world today. These histories reveal the enduring authority of scientific claims to a tradition that equates social good with the control of women's free will and desire. Thus, they managed to dramatically reorganize their society around upper-caste Hindu ideals of strict monogamy"--

Moti Guj - Mutineer Dec 15 2021 Moti Guj - Mutineer is a short story by Rudyard Kipling. Joseph Rudyard Kipling (30 December 1865 - 18 January 1936) was an English short-story writer, poet, and novelist. He wrote tales and poems of British soldiers in India and stories for children. He was born in Bombay, in the Bombay Presidency of British India, and was taken by his family to England when

he was five years old. Kipling's works of fiction include *The Jungle Book* (a collection of stories which includes "Rikki-Tikki-Tavi"), the *Just So Stories* (1902), *Kim* (1901), and many short stories, including "The Man Who Would Be King" (1888). His poems include "Mandalay" (1890), "Gunga Din" (1890), "The Gods of the Copybook Headings" (1919), "The White Man's Burden" (1899), and "If-" (1910). He is regarded as a major innovator in the art of the short story; his children's books are enduring classics of children's literature; and one critic described his work as exhibiting "a versatile and luminous narrative gift." Kipling was one of the most popular writers in England, in both prose and verse, in the late 19th and early 20th centuries. Henry James said: "Kipling strikes me personally as the most complete man of genius (as distinct from fine intelligence) that I have ever known." In 1907, he was awarded the Nobel Prize in Literature, making him the first English-language writer to receive the prize, and its youngest recipient to date. Among other honours, he was sounded out for the British Poet Laureateship and on several occasions for a knighthood, all of which he declined. Kipling's subsequent reputation has changed according to the political and social climate of the age and the resulting contrasting views about him continued for much of the 20th century. George Orwell called him a "prophet of British imperialism." Literary critic Douglas Kerr wrote: "He [Kipling] is still an author who can inspire passionate disagreement and his place in literary and cultural history is far from settled.
