Objects, Abstraction, Data Structures and Design Sep 19 2021 "It is a practical book with emphasis on real problems the programmers encounter daily." --Dr. Tim H. Lin, California State Polytechnic University, Pomona "My overall impressions of this book are excellent. This book emphasizes the three areas I want: advanced C++, data structures and the STL and is much stronger in these areas than other competing books." --Al Verbanec, Pennsylvania State University Think, Then Code When it comes to writing code, preparation is crucial to success. Before you can begin writing successful code, you need to first work through your options and analyze the expected performance of your design. That's why Elliot Koffman and Paul Wolfgang's *Objects, Abstraction, Data Structures, and Design: Using C++* encourages you to Think, Then Code, to help you make good decisions in those critical first steps in the software design process. The text helps you thoroughly understand basic data structures and algorithms, as well as essential design skills and principles. Approximately 20 case studies show you how to apply those skills and principles to real-world problems. Along the way, you'll gain an understanding of why different data structures are needed, the applications they are suited for, and the advantages and disadvantages of their possible implementations. Key Features * Object-oriented approach. * Data structures are presented in the context of software design principles. * 20 case studies reinforce good programming practice. * Problem-solving methodology used throughout... "Think, then code!" * Emphasis on the C++ Standard Library. * Effective pedagogy.

Virtual Environments '98 Dec 31 2019 Ten years after Virtual Environment research started with NASA's VIEW project, these techniques are now exploited in industry to speed up product development cycles, to ensure higher product quality, and to encourage early training on and for new products. Especially the automotive industry, but also the oil and gas industry are driving the use of these techniques in their works. The papers in this volume reflect all the different tracks of the workshop: reviewed technical papers as research contributions, summaries on panels of VE applications in the automotive, the medical, the telecommunication and the geoscience field, a panel discussing VEs as the future workspace, invited papers from experts reporting from VEs for entertainment industry, for media arts, for supercomputing and productivity enhancement. Short industrial case studies, reporting very briefly from ongoing industrial activities complete this state of the art snapshot.

Observing the Observer Mar 26 2022 THE collection of papers in this volume documents the study of Islam in American Universities. Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U.S. with Muslim countries, migration of Muslims into the country, conversion of Americans to Islam, U.S. interests in Arab oil resources, involvement of Muslims in the American public square, and the tragic events of 9/11. Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration, multiculturalism, and political turmoil, nevertheless, the state of Islamic Studies in America is far from satisfactory. The issue needs to be addressed, particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an "Islam industry" run primarily by fly-by journalists, think tank pundits, and cut-and-paste "experts."

Resilience in Aging Jun 16 2021 The many significant technological and medical advances of the 21st century cannot overcome the escalating risk posed to older adults by such stressors as pain, weakness, fatigue, depression, anxiety, memory and other cognitive deficits, hearing loss, visual impairment, isolation, marginalization, and physical and mental illness. In order to overcome these and other challenges, and to maintain as high a quality of life as possible, older adults and the professionals who treat them need to promote and develop the capacity for resilience, which is innate in all of us to some degree. The purpose of this book is to provide the current scientific theory, clinical guidelines, and real-world interventions with regard to resilience as a clinical tool. To that end, the book addresses such issues as concepts and operationalization of resilience; relevance of resilience to successful aging; impact of personality and genetics on resilience; relationship between resilience and motivation; relationship between resilience and survival; promoting resilience in long-term care; and the lifespan approach to resilience. By addressing ways in which the hypothetical and theoretical concepts of resilience can be applied in geriatric practice, *Resilience in Aging* provides inroads to the current knowledge and practice of resilience from the perspectives of physiology, psychology, culture, creativity, and economics. In addition, the book considers the impact of resilience on critical aspects of life for older adults such as policy issues (e.g., nursing home policies, Medicare guidelines), health and wellness, motivation, spirituality, and survival. Following these discussions, the book focuses on interventions that increase resilience. The intervention chapters include case studies and are intended to be useful at the clinical level. The book concludes with a discussion of future directions in optimizing resilience in the elderly and the importance of a lifespan approach to aging.

[Patterns for College Writing](#) May 28 2022 Laurie Kirsznner and Stephen Mandell, authors with nearly thirty years of experience teaching college writing, know what works in the classroom and have a knack for picking just the right readings. In *Patterns for College Writing*, they provide students with exemplary rhetorical models and instructors with class-tested selections that balance classic and contemporary essays. Along with more examples of student writing than any other reader, *Patterns* has the most comprehensive coverage of active reading, research, and the writing process, with a five-chapter mini-rhetoric; the clearest explanations of the patterns of development; and the most thorough apparatus of any rhetorical reader, all reasons why *Patterns for College Writing* is the best-selling reader in the country. And the new edition includes exciting new readings and expanded coverage of critical reading, working with sources, and research. It is now available as an interactive Bedford e-book and in a variety of other e-book formats that can be downloaded to a computer, tablet, or e-reader. Read the preface.

Going to Trinidad Jun 24 2019 For more than four decades, between 1969 and 2010, the remote former mining town of Trinidad, Colorado was the unlikely crossroads for approximately six thousand medical pilgrims who came looking for relief from the pain of gender dysphoria. The surgical skill and nonjudgmental compassion of surgeons Stanley Biber and his transgender protege Marci Bowers not only made the phrase "Going to Trinidad" a euphemism for gender confirmation surgery in the worldwide transgender community, but also turned the small outpost near the New Mexico border into what *The New York Times* once called "the sex-change capital of the world." The full story of that nearly forgotten chapter in gender and medical history has never been told--until now. Award-winning writer Martin J. Smith spent two years researching not only the stories of Trinidad, Biber, and Bowers, but also tracking the lives of many transgender men and women who sought their services. The result is "Going to Trinidad," which focuses on the complicated pre- and post-surgery lives of two Biber patients--Claudine Griggs and Walt Heyer--who experienced very different outcomes. Through them, Smith takes readers deep into the often-mystifying world of gender, genitalia, and sexuality, and chronicles a fascinating segment of the human species that's often misunderstood by those for whom gender remains a mostly binary male-or-female equation. The stories of Trinidad's surgeons and transgender pilgrims provide an important opportunity to better understand the millions of complex individuals whose personal struggle is complicated by today's quicksand of cultural pressures and prejudices. More than six thousand transgender men and women left Trinidad hoping that hormone therapy and surgical relief was the right prescription for their pain. For most it was, but not for all, and their experiences offer important and timely insights for those struggling to understand this sometimes confounding human condition.

Policing the Black Man Jul 30 2022 A comprehensive, readable analysis of the key issues of the Black Lives Matter movement, this thought-provoking and compelling anthology features essays by some of the nation's most influential and respected criminal justice experts and legal scholars. "Somewhere among the anger, mourning and malice that Policing the Black Man documents lies the pursuit of justice. This powerful book demands our fierce attention." —Toni Morrison Policing the Black Man explores and critiques the many ways the criminal justice system impacts the lives of African American boys and men at every stage of the criminal process, from arrest through sentencing. Essays range from an explication of the historical roots of racism in the criminal justice system to an examination of modern-day police killings of unarmed black men. The contributors discuss and explain racial profiling, the power and discretion of police and prosecutors, the role of implicit bias, the racial impact of police and prosecutorial decisions, the disproportionate imprisonment of black men, the collateral consequences of mass incarceration, and the Supreme Court's failure to provide meaningful remedies for the injustices in the criminal justice system. Policing the Black Man is an enlightening must-read for anyone interested in the critical issues of race and justice in America.

Unspeakable Truths 2e Mar 02 2020 In a sweeping review of forty truth commissions, Priscilla Hayner delivers a definitive exploration of the global experience in official truth-seeking after widespread atrocities. When Unspeakable Truths was first published in 2001, it quickly became a classic, helping to define the field of truth commissions and the broader arena of transitional justice. This second edition is fully updated and expanded, covering twenty new commissions formed in the last ten years, analyzing new trends, and offering detailed charts that assess the impact of truth commissions and provide comparative information not previously available. Placing the increasing number of truth commissions within the broader expansion in transitional justice, Unspeakable Truths surveys key developments and new thinking in reparations, international justice, healing from trauma, and other areas. The book challenges many widely-held assumptions, based on hundreds of interviews and a sweeping review of the literature. This book will help to define how these issues are addressed in the future.

An Empire of Their Own Aug 26 2019 A provocative, original, and richly entertaining group biography of the Jewish immigrants who were the moving forces behind the creation of America's motion picture industry. The names Harry Cohn, William Fox, Carl Laemmle, Louis B. Mayer, Jack and Harry Warner, and Adolph Zucker are giants in the history of contemporary Hollywood, outsiders who dared to invent their own vision of the American Dream. Even to this day, the American values defined largely by the movies of these émigrés endure in American cinema and culture. Who these men were, how they came to dominate Hollywood, and what they gained and lost in the process is the exhilarating story of An Empire of Their Own.

In the Dark of War Oct 09 2020 Most of the world is aware of the tragic events surrounding the 2012 attacks in Benghazi, Libya, that killed four Americans. Most are also aware of the resulting political controversy in Washington. But few know what happened next in Libya. While said controversy in Washington subsided, the volatility in Libya escalated—threatening the brave men and women who remained behind to continue the U.S. mission. In this dramatic retelling of dangerous attacks threatening the U.S. mission in Tripoli, Libya—less than two years after Benghazi—American valor and courage prevailed. The U.S. personnel and intrepid operators stood fast as militias clashed, suicide bombers attacked, and numerous threats and kidnappings closed in on their location. In the midst of it all, the intelligence and determination of one woman with unwavering faith played a pivotal role in saving them all...

Sweating the Small Stuff Aug 31 2022 This book tells the story of six secondary schools that have succeeded in eliminating or dramatically shrinking the achievement gap between whites and disadvantaged black and Hispanic students. It recounts the stories of the University Park Campus School (UPCS) in Worcester, the American Indian Public Charter School in Oakland, Amistad Academy in New Haven, the Cristo Rey Jesuit High School in Chicago, the KIPP Academy in the Bronx, and the SEED school in Washington, D.C.

Law and Popular Culture Sep 07 2020 This book explores the interface between law and popular culture, two subjects of enormous current importance and influence. Exploring how they affect each other, each chapter discusses a legally themed film or television show, such as Philadelphia or Dead Man Walking, and treats it as both a cultural and a legal text, illustrating how popular culture both constructs our perceptions of law, and changes the way that players in the legal system behave. Written without theoretical jargon, Law and Popular Culture: A Course Book is intended for use in undergraduate or graduate courses and can be taught by anyone who enjoys pop culture and is interested in law.

Copy(write) Jul 06 2020 Brings together stories, theories, and research that can further inform the ways in which writing teachers situate and address intellectual property issues in writing classrooms. The essays in the collection identify and describe a wide range of pedagogical strategies, consider theories, present research, explore approaches, and offer both cautionary tales and local and contextual successes.

Fired Up or Burned Out Oct 21 2021 Indisputable evidence has revealed the greatest threat to America's economy. Is it off-shoring labor? Unethical corporate practices? A turbulent market that forces downsizing? No. A Gallup Organization survey of more than one million Americans show that nearly 75 percent of all workers are disengaged. Employee disengagement is a widespread malady in American organizations, causing the loss of billions of dollars, hours of dissatisfaction, and work lives lacking true value. In his book, Fired Up or Burned Out, Michael Stallard shares the three key actions necessary to transform even a lethargic, disconnected organization or office into an impassioned, innovative, and thriving workplace.

The Confederate Battle Flag Jun 04 2020 In recent years, the Confederate flag has become as much a news item as a Civil War relic. Intense public debates have erupted over Confederate flags flying atop state capitols, being incorporated into state flags, waving from dormitory windows, or adorning the T-shirts and jeans of public school children. To some, this piece of cloth is a symbol of white supremacy and enduring racial injustice; to others, it represents a rich Southern heritage and an essential link to a glorious past. Polarizing Americans, these "flag wars" reveal the profound—and still unhealed—schisms that have plagued the country since the Civil War. The Confederate Battle Flag is the first comprehensive history of this contested symbol. Preceding conventional partisanship, John Coski reveals the flag's origins as one of many banners unfurled on the battlefields of the Civil War. He shows how it emerged as the preeminent representation of the Confederacy and was transformed into a cultural icon from Reconstruction on, becoming an aggressively racist symbol only after World War II and during the Civil Rights movement. We gain unique insight into the fine line between the flag's use as a historical emblem and as an invocation of the Confederate nation and all it stood for. Pursuing the flag's conflicting meanings, Coski suggests how this provocative artifact, which has been viewed with pride, fear, anger, nostalgia, and disgust, might ultimately provide Americans with the common ground of a shared and complex history.

Fast-Forward Family Sep 27 2019 Called "the most unusually voyeuristic anthropology study ever conducted" by the New York Times, this groundbreaking book provides an unprecedented glimpse into modern-day American families. In a study by the UCLA Sloan Center on Everyday Lives and Families, researchers tracked the daily lives of 32 dualworker middle class Los Angeles families between 2001 and 2004. The results are startling, and enlightening. Fast-Forward Family shines light on a variety of issues that face American families: the differing stress levels among parents; the problem of excessive clutter in the American home; the importance (and decline) of the family meal; the vanishing boundaries that once separated work and home life; and the challenges for parents as they try to reconcile ideals regarding what it means to be a good parent, a good worker, and a good spouse. Though there are also moments of connection, affection, and care, it's evident that life for 21st century working parents is frenetic, with extended work hours, children's activities, chores, meals to prepare, errands to run, and bills to pay.

Abraham Lincoln: Vampire Hunter Nov 21 2021 Indiana, 1818. Moonlight falls through the dense woods that surround a one-room cabin, where a nine-year-old Abraham Lincoln kneels at his suffering mother's bedside. She's been stricken with something the old-timers call "Milk Sickness." "My baby boy..." she whispers before dying. Only later will the grieving Abe learn that his mother's fatal affliction was actually the work of a vampire. When the truth becomes known to young Lincoln, he writes in his journal, "henceforth my life shall be one of rigorous study and devotion. I shall become a master of mind and body. And this mastery shall have but one purpose..." Gifted with his legendary height, strength, and skill with an ax, Abe sets out on a path of vengeance that will lead him all the way to the White House. While Abraham Lincoln is widely lauded for saving a Union and freeing millions of slaves, his valiant fight against the forces of the undead has remained in the shadows for hundreds of years. That is, until Seth Grahame-Smith stumbled upon The Secret Journal of Abraham Lincoln, and became the first living person to lay eyes on it in more than 140 years. Using the journal as his guide and writing in the grand biographical style of Doris Kearns Goodwin and David McCullough, Seth has reconstructed the true life story of our greatest president for the first time—all while revealing the hidden history behind the Civil War and uncovering the role vampires played in the birth, growth, and near-death of our nation.

Building the International Criminal Court Jan 30 2020 The International Criminal Court (ICC) is the first and only standing international court capable of prosecuting humanity's worst crimes: genocide, war crimes, and crimes against humanity. It faces huge obstacles. It has no police force; it pursues investigations in areas of tremendous turmoil, conflict, and death; it is charged both with trying suspects and with aiding their victims; and it seeks to combine divergent legal traditions in an entirely new international legal mechanism. International law advocates sought to establish a standing international criminal court for more than 150 years. Other, temporary, single-purpose criminal tribunals, truth commissions, and special courts have come and gone, but the ICC is the only permanent inheritor of the Nuremberg legacy. In Building the International Criminal Court, Oberlin College Professor of Politics Ben Schiff analyzes the International Criminal Court, melding historical perspective, international relations theories, and observers' insights to explain the Court's origins, creation, innovations, dynamics, and operational challenges.

The Life of Thomas Paine Dec 11 2020

Eliza Calvert Hall Apr 14 2021 In 1907, author, poet, essayist, and folk art historian Eliza Calvert Hall (1856--1935) published Aunt Jane of Kentucky, a collection of stories about rural life infused with the spirit and gentle good humor of its elderly narrator, Aunt Jane. The book and several sequels achieved wide popularity, reaching an estimated one million

readers in her lifetime, and placed Hall in the front ranks of "local color" fiction writers of her time. Eliza Calvert Hall's life and work unfolded during a time of restlessness and change for American women. Born Eliza "Lida" Calvert in Bowling Green, Kentucky, Hall experienced the upheaval of both the Civil War and family scandal. Forced to help support her mother and four siblings by teaching school, she became a published poet, adopting her grandmother's name, Hall, as her pseudonym. At twenty-nine, she married William A. Obenchain, and in the space of eight years gave birth to four children. As Hall struggled to balance her writing career with the duties of a nineteenth-century wife and mother, suffragist Laura Clay was lobbying for every woman's right to vote. Hall joined the battle, writing fearlessly in support of suffrage and equality. While her passionate essays served as a direct appeal for this cause, her creative writing also carried a feminist spirit, celebrating the strength, humor, love, and art of the common woman. In *Eliza Calvert Hall: Kentucky Author and Suffragist*, Lynn E. Niedermeier tells the story of this remarkable Kentuckian for the first time. Hall's challenge was to balance the artist's creative ambitions with the crusader's passion for achieving the goal of political equality for American women. Her successes did not stem from privilege or leisure; although she was an acclaimed writer, Hall was an ordinary woman, a wife and mother of moderate economic means. Through the power of her words, she challenged others to match her courage, independence, intellectual energy, and loyalty to her sex.

Strengthening Forensic Science in the United States Nov 02 2022 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
