*Escape from Baghdad* Mar 29 2020 Gun-for-hire James 'Ash' Ashcroft thought he'd left Iraq behind. Last time he only got out alive thanks to the bravery of his interpreter and friend Sammy. But now a call for help means Ash must once again face the chaos of war-torn Baghdad - and this time there's no pay cheque. Abandoned by the occupying Coalition Forces, Sammy and his family face certain death at the hands of the Shia-dominated Iraqi Police and the death squads that roam the streets unless Ash and his team can get in and get them to safety over the border. This is the action-packed story of their audacious escape from Baghdad. It is a gripping account of the chaos of war, where the only thing that can be relied upon is the bond between former brothers-in-arms.

Power and the Engineer Jun 19 2019

*Escape by Moonlight* Aug 22 2019 Summer, 1939. The de Lacey family of Nayton Manor believe they are ready for the changes the war will bring. Elizabeth, the eldest daughter, is due to return home from her grandparents' farm in France and is expected to marry the

dashing Captain Max Coburn. But when Grandpère suffers a stroke while driving Elizabeth to the station, her future is changed. Instead of returning home to Norfolk, Elizabeth chooses to stay and help her grandparents. Max is also stationed in France - but will this help their courtship, or will the war threaten to separate them for ever? Meanwhile, in the village of Nayton, Lucy Storey dutifully cares for her father the stationmaster, running their home in the little cottage by the railway. Her long hard days are brightened by meetings with the handsome Jack de Lacey, who brings a brief escape from her daily routine. As their friendship grows, can they overcome the class prejudices set in their way, or will the jealous signalman Frank Lambert succeed in destroying their romance? For all at Nayton, war becomes a time of risk and danger, of secrets and betrayal, and of finding love in the most unexpected places.

Escape Under Sail Mar 09 2021 Foreword by Laurel Cooper, author of *Sell Up and Sail*  
Selling up and escaping to sea on their own boat is a dream that many think they can never make happen. *Escape Under Sail* is here to show you that it can be done, and for less money than you might think. This book delves to the very heart of what it takes and shows you exactly how you can go from casual cruiser to long-term liveaboard. *Escape Under Sail* covers all of the crucial topics, including budget and costs, how to choose a boat, making

sure crew are equipped and trained, letting go both practically and psychologically, preparation and provisioning, education and, most importantly, the challenges and rewards of living at sea. The book pays special attention to making the liveaboard dream come true for those with a limited budget, while providing further options for those with the means and desire to spend more and splurge where they like. Written in the voices of both authors, so you can follow their experiences from each of their perspectives, which are sometimes wildly different, this practical handbook is peppered with personal anecdotes and hard-earned wisdom. Light-hearted but informative, it contains all the questions, answers, lists, figures and diagrams you need to make your liveaboard dreams come true.

**Escape** Aug 02 2020 Tehran, Iran 1979: Simmering religious tensions explode and the Shah is forced to flee Iran. A British helicopter company—secretly owned by the Noble House of Hong Kong—with a fleet of helicopters registered in Iran faces bankruptcy if their copters are claimed or destroyed by the uprising. The pilots need to escape, but they've built lives in Iran, some even have families. Finnish pilot Erikki Yokkonen has married Azadeh, an Iranian woman of noble birth, whose family is caught up in the political situation exploding around them. Tasked with saving as many of the helicopters as he can and desperate to save his love, Erikki and Azadeh become caught up in the events around them. Threaded throughout master storyteller James Clavell's novel *Whirlwind* much like a shimmering strand of silk woven through an elaborate Persian carpet, is the love story of two people from different backgrounds. They have been brought together by a love stronger than either one, a love stronger than the revolutionary fires that burn all around them. A moving story, expertly told, unthreaded from the original masterwork, and allowed to stand on its own, brilliantly.

## **The Marine Steam Engine ... Aug 26 2022**

*Graph Drawing* May 23 2022 This book constitutes the proceedings of the 16th International Symposium on Graph Drawing, GD 2008, held in Heraklion, Crete, Greece, during September 21-24, 2008. The 31 long papers and 8 short papers presented together with 10 posters and two invited papers were carefully reviewed and selected from 83 submissions. The volume also includes a report on the Graph Drawing Contest which was held during the conference. An important aspect of the conference is bridging the gap between theoretical advances and implemented solutions of geometric representation of graphs and networks. It is motivated by those applications where it is crucial to visualize structural information as graphs.

The Last Escape Feb 26 2020 As WW2 drew to a close, hundreds of thousands of British and American prisoners of war, held in camps in Nazi-occupied Europe, faced the prospect that they would never get home alive. In the depths of winter, their guards harried them on marches out of their camps and away from the armies advancing into the heart of Hitler's defeated Germany. Hundreds died from exhaustion, disease and starvation. THE LAST ESCAPE is told through the testimony of those heroic men, now in their seventies and eighties and telling their stories publicly for the first time.

Narrow Escape May 31 2020 “Oh, you live on a boat? That must be really cold in the winter...” Or, “Oh, you live on a boat? It must be great being so close to nature...” Or, “Oh,

you live on a boat? It must be fantastic to be able to go wherever you like, whenever you like...” Narrow Escape sets out to dispel these commonly held public myths. From how to avoid assassination by ninja stealth ducklings, through definitive proof that kittens are aliens and the best way to sleep at forty-five degrees, to the importance of having the right boating equipment; (a child’s plastic sledge and a never ending supply of cotton wool balls). This month by month account of one family’s liveaboard year takes a firmly tongue in cheek look at what it takes to enjoy the ‘idyllic’ lifestyle.
