Fellowship Point Mar 26 2022 NATIONAL BESTSELLER “Engrossing...studded with wisdom about long-held bonds.” —People, Book of the Week “Enthralling, masterfully written...rich with social and psychological insights.” —The New York Times Book Review “A magnificent storytelling feat.” —The Boston Globe The “utterly engrossing, sweeping” (Time) story of a lifelong friendship between two very different “superbly depicted” (The Wall Street Journal) women with shared histories, divisive loyalties, hidden sorrows, and eighty years of summers on a pristine point of land on the coast of Maine, set across the arc of the 20th century. Celebrated children’s book author Agnes Lee is

determined to secure her legacy—to complete what she knows will be the final volume of her pseudonymously written Franklin Square novels; and even more consuming, to permanently protect the peninsula of majestic coast in Maine known as Fellowship Point. To donate the land to a trust, Agnes must convince shareholders to dissolve a generations-old partnership. And one of those shareholders is her best friend, Polly. Polly Wister has led a different kind of life than Agnes: that of a well-off married woman with children, defined by her devotion to her husband, a philosophy professor with an inflated sense of stature. She strives to create beauty and harmony in her home, in her friendships, and in her family. Polly soon finds her loyalties torn between the wishes of her best friend and the wishes of her three sons—but what is it that Polly wants herself? Agnes’s designs are further

muddled when an enterprising young book editor named Maud Silver sets out to convince Agnes to write her memoirs. Agnes's resistance cannot prevent long-buried memories and secrets from coming to light with far-reaching repercussions for all. "An ambitious and satisfying tale" (The Washington Post), Fellowship Point reads like a 19th-century epic, but it is entirely contemporary in its "reflections on aging, writing, stewardship, legacies, independence, and responsibility. At its heart, Fellowship Point is about caring for the places and people we love...This magnificent novel affirms that change and growth are possible at any age" (The Christian Science Monitor). The Fellowship of Ghosts Aug 07 2020 The author of Stand Before Your God recounts his recent solo journeys on foot through Norway's mountains, describing the beautiful country, with its blue snowfields and valleys bordered by thousand-foot cliffs, as well as the harsh terrain. Reprint. 15,000 first printing.

Angry Love Feb 22 2022 Angry love - Memoirs of a fellow Seeker for a Better Country is the autobiographic recollection of an exceptional life

journey. Jenni Kirby grew up in Apartheid South Africa. As young Coloured girl she had been adversely impacted by Apartheid; she vividly recalls profound experiences. She angrily joined the Struggle. During the 1970s she met a fellow white activist and they fell in love. The young couple experienced rejection from all sides; it had still been against the law to be in relationship across the colour bar. They eventually found themselves exiles in Britain, but there they encountered new challenges. In the UK Jenni entered into the ministry as a Methodist minister, but she could never detach from her mother country. These memoirs are about her pilgrimage in seeking a better country, it is about relationships and being connected, about identity and rejection, the struggle between anger and love, and about the inner journey towards grace. It is a remarkable story, captivating and brilliantly written.

Memoirs of Montparnasse Mar 02 2020 *Memoirs of Montparnasse* is a delicious book about being young, restless, reckless, and without cares. It is also the best and liveliest of the many chronicles of 1920s Paris and the exploits of the lost generation. In 1928, nineteen-year-old John Glassco escaped Montreal and his overbearing father for the wilder shores of Montparnasse. He remained there until his money ran out and his health collapsed, and he enjoyed every minute of his stay. Remarkable for their candor and humor, Glassco's memoirs have the daft logic of a wild but utterly absorbing adventure, a tale of desire set free that is only faintly shadowed by sadness at the inevitable passage of time.

The Red Parts May 28 2022 In 1969, Jane Mixer, a first-year law student at the University of Michigan, posted a note on a student noticeboard to share a lift back to her hometown of Muskegon for spring break. She never made

it- she was brutally murdered, her body found a few miles from campus the following day. The Red Parts is Maggie Nelson's singular account of her aunt Jane's death, and the trial that took place some 35 years afterward. Officially unsolved for decades, the case was reopened in 2004 after a DNA match identified a new suspect, who would soon be arrested and tried. In 2005, Nelson found herself attending the trial, and reflecting with fresh urgency on our relentless obsession with violence, particularly against women. Resurrecting her interior world during the trial - in all its horror, grief, obsession, recklessness, scepticism and downright confusion - Maggie Nelson has produced a work of profound integrity and, in its subtle indeterminacy, deadly moral precision. *A Memoir of the Rev. Henry Reynolds, B.D. Formerly Fellow and Tutor of Jesus College, Oxford* Sep 19 2021

A Nobel Fellow on Every Floor Jun 24 2019 In Cambridge in the 1950s, several research groups funded by the Medical Research Council were producing exciting results. In the Biochemistry Department, Sanger determined the amino acid sequence of insulin, and was awarded a Nobel Prize for this in 1958. At the Cavendish Laboratory, in the MRC Unit for the Study of the Molecular Structure of Biological Systems, Watson and Crick solved the structure of DNA, and Perutz and Kendrew produced the first three-dimensional maps of protein structures - haemoglobin and myoglobin - for which all four were later awarded Nobel Prizes. This made it timely to create, in 1962, a new Laboratory of Molecular Biology in Cambridge by amalgamating these groups with other MRC-funded groups from London. The Laboratory has

become one of the most successful in its field, and the number of Nobel Prizes awarded over the years to scientists at LMB has risen to thirteen. This book follows the development of LMB, through the people who moved into the new Laboratory and their research. It describes events and personalities that have given the Laboratory a friendly, family atmosphere, while continuing to be scientifically productive. [My Fellow Prisoners](#) Apr 26 2022 The Russian oil mogul and activist offers reflections on his decades-long incarceration under Putin in this “illuminating and brave” prison memoir (The Washington Post). Mikhail Khodorkovsky was Russia’s most successful businessman—and an outspoken critic of the Kremlin. As his oil company Yukos revived the Russian oil industry, Khodorkovsky began sponsoring programs to encourage civil society and fight corruption. Then he was arrested at gunpoint. Sentenced to ten years in a Siberian penal colony on fraud and tax evasion charges in 2003, Khodorkovsky was

put on trial again in 2010 and sentenced to fourteen years on new charges that contradicted the previous ones. While imprisoned, Khodorkovsky fought for the rights of his fellow prisoners, going on hunger strike four times. After he was pardoned in 2013, he vowed to continue fighting for prisoners’ rights, and this book is dedicated to that work. A moving portrait of the prisoners Khodorkovsky met, *My Fellow Prisoners* is an eye-opening account of Russia’s brutal prison system. “Vivid, humane and poignant” —Financial Times

Three Years with Wallace's Zouaves Aug 26 2019 This book will appeal to anyone interested in the western theater of the Civil War, soldier life, or Indiana history. Durham's memoir is a

well-written and detailed account of his experiences as both an enlisted soldier and a company officer in the Union Army, with valuable descriptions of combat, camp life, and encounters with fellow soldiers and civilians. Durham wrote with candor and seemed to avoid exaggerating his role in the events he describes. As Durham explained it the piece was intended for his family's enjoyment and not for publication, "to portray the joys and pleasures and sorrows, hardships and sufferings of a soldier in that war." Although some minor mistakes appear in his memoir, Durham obviously strove to make it as accurate as possible. Despite the fact that a number of soldier memoirs and reminiscences have been published in the past several years, few have dealt with the vitally important campaigns west of the Appalachians. In addition, practically nothing about the famous 11th Indiana regiment has appeared in print for decades. Thomas Wise Durham's extraordinary memoir of "ordinary"

soldier life stands as a significant contribution to the genre of Civil War memoirs.

Autobiography of a Yogi Dec 23 2021 The autobiography of Paramahansa Yogananda (1893 - 1952) details his search for a guru, during which he encountered many spiritual leaders and world-renowned scientists. When it was

published in 1946 it was the first introduction of many westerners to yoga and meditation. The famous opera singer Amelita Galli-Curci said about the book: "Amazing, true stories of saints and masters of India, blended with priceless superphysical information-much needed to balance the Western material efficiency with Eastern spiritual efficiency-come from the vigorous pen of Paramhansa Yogananda, whose teachings my husband and myself have had the pleasure of studying for twenty years."
