**Current Issues and Enduring Questions** Dec 23 2021 The unique collaborative effort of a professor of English and a professor of philosophy, Current Issues and Enduring Questions is an extensive resource for teaching argument, persuasive writing, and rigorous critical thinking. This extraordinarily versatile text and reader continues to address current student interests and trends in argument, research, and writing. Its comprehensive coverage of classic and contemporary approaches to argument includes Aristotelian, Toulmin, and a range of alternative views, including a new chapter on analyzing and writing about arguments in popular culture. Readings on contemporary controversies (including student loan debt, locavorism, and the boundaries of online privacy) and classical philosophical questions (such as How free is the will of the individual?) are sure to spark student interest and lively discussion and writing, and new e-Pages take advantage of what the Web can do by including videos, speeches, film trailers, and other multimodal arguments.

**Asking the Right Questions** Oct 09 2020 Used in a variety of courses in various disciplines, Asking the Right Questions helps students bridge the gap between simply memorizing or blindly accepting information, and the greater challenge of critical analysis and synthesis. Specifically, this concise text teaches students to think critically by exploring the components of arguments--issues, conclusions, reasons, evidence, assumptions, language--and on how to spot fallacies and manipulations and obstacles to critical thinking in both written and visual communication. It teaches

them to respond to alternative points of view and develop a solid foundation for making personal choices about what to accept and what to reject.

**Rereading America** May 04 2020 Rereading America remains the most widely adopted book of its kind because of its unique approach to the issue of cultural diversity. Unlike other multicultural composition readers that settle for representing the plurality of American voices and cultures, Rereading America encourages students to grapple with the real differences in perspectives that arise in our complex society. With extensive editorial apparatus that puts readings from the mainstream into conversation with readings from the margins, Rereading America provokes students to explore the foundations and contradictions of our dominant cultural myths. The print text is now integrated with e-Pages for Rereading America, designed to take advantage of what the

Web can do.

**Critical Thinking, Reading, and Writing** Sep 19 2021 Critical Thinking, Reading, and Writing is a compact but complete guide to critical thinking and argumentation. Comprising the text portion of the widely adopted Current Issues and Enduring Questions, it draws on the authors' dual expertise in effective persuasive writing and comprehensive rhetorical strategies to help students move from critical thinking to argumentative and researched writing. This extraordinarily versatile text includes comprehensive coverage of classic and contemporary approaches to argument, from Aristotelian to Toulmin, to a new chapter on rhetorical analysis of pop culture texts, as well as 35 readings (including e-Pages that allow students to take advantage of working with multimodal arguments on the Web), and a casebook on the state and the individual. This affordable guide can stand alone or supplement a larger anthology of readings.

**Thinking Through Communication** Jul 18 2021 The ninth edition of this textbook for hybrid introductory communication courses provides a balanced introduction to the fundamental theories and principles of communication. The book explores communication in a variety of contexts—including interpersonal, group, organizational, and mass media—and provides students the theoretical knowledge and the research and critical thinking skills they'll need to succeed in advanced communication courses and professions. The first section explores the history of communication study and explains basic perspectives used by scholars in the field. The second looks at how communicators decode and encode messages, while the third examines channels and contexts, from interpersonal to mass media. This edition devotes attention to how new technologies are changing the ways we think about communication, with revised and updated examples, and gives special attention to relevant critical theory. Two appendices give users the flexibility to tailor

their courses to the interests and needs of their students, offering guidelines for preparing and presenting public presentations and giving examples of major research methods. Thinking Through Communication is an ideal textbook for Introduction to Communication courses that aim to provide a comprehensive overview of the field. A companion website for instructors containing PowerPoint slides, test questions, and an instructor's manual is available at <https://routledge-textbooks.com/textbooks/9780367857011>.
