Dr. Pitcairn's Complete Guide to Natural Health for Dogs & Cats (4th Edition) Aug 08 2020 For more than 30 years, Dr. Pitcairn's Complete Guide to Natural Health for Dogs & Cats has been the go-to resource for health-conscious animal lovers. This fourth edition is updated with the latest information in natural pet health, including groundbreaking research on the benefits of vegan diets for pets, as well as nutritionally complete recipes to give your pets optimal health that you can also enjoy, making home prepared diets easier than ever. The Pitcairns also discuss behavior issues, general nutrition, and a more humane approach to caring for pets. The Pitcairns have long been the trusted name in holistic veterinary care and continue to be at the forefront of natural pet health. Written with the same compassion and conviction, the fourth edition of Natural Health for Dogs & Cats will help you give your beloved animals the healthiest, happiest life.

Seizures in Dogs and Cats Nov 22 2021 Seizures in Dogs and Cats offers a practical, complete resource for the veterinary management of seizures in dog and cat patients. The book is carefully designed for ease of use in the clinical setting, presenting clinically oriented information on the etiology, diagnosis, and management of seizures. Each chapter begins with key points, then presents greater detail, making the book equally useful for fast access during the exam and for further reference. The book begins with chapters on the history, biology, and classification of seizures, then covers diagnosis, medical and surgical treatment, emergencies, and complementary medicine. Unique chapters cover client communications and potential future directions of the field. Seizures in Dogs and Cats puts all the information needed to manage seizures in the veterinary clinic at your fingertips.

Dogs and Cats Have Souls Too Sep 08 2020 Many people believe that they have a special pet - one that is clever, caring, and... very "human". From a young age, Jenny Smedley had the ability to empathise and communicate with animals. She became aware that every life on the planet is connected and that animals have a vital purpose on the earth. In this book, Jenny shows how dogs and cats are more than just pets - they have a special reason for being in our lives, one that is more important to us than we could imagine. Through hundreds of stories, Jenny shows the powerful bonds humans have with their pets, and reveals the unexpected, surprising, and sometimes unbelievable role they play in our lives. Discover stories of: •pets who have appeared in time to warn of danger or protect their owners •dogs and cats who revisit their owners after death to bring comfort •pets who have brought healing to their owners •telepathic and psychic pets If you love animals or have a special connection with your cat or dog, this book will show you that your intuitions are correct - your beloved pet does communicate with you, understand you, and care for you. Your pet does have a soul!

Dogs and Cats Nov 03 2022 Are you a cat lover? A dog person? Either way, this book is for you! Read about how your favorite companion came to be a pet and how its body works. Then, flip the book over and find out about the other kind. Once again Steve Jenkins takes children's nonfiction to a new level. Here is an amazing book filled with great information, visual facts, and lots of animal history. The illustrations are so incredibly realistic, you'll want to pet them!

My Cat, My Dog Oct 10 2020 A child compares pets in this silly look at cats and dogs. "My cat can sleep. My dog can sleep. My cat can sleep on top of my dog." Simple sentences and whimsical illustrations are ideal for toddlers, preschoolers, and beginning readers.

Grooming Manual for the Dog and Cat Feb 11 2021 One of the responsibilities of every dog or cat owner is that of coat care. There are many and varied coat types and there is a vast difference between the time it takes to groom a Doberman and an Old English Sheepdog, a Siamese and a Persian cat. This book provides much needed guidance for groomers, breeders and owners. It will be invaluable for those taking the City and Guilds 775 Grooming exam and animal care students of all levels. Step by step grooming/clipping techniques are described for the more popular breeds of dog and cat and in each case the technique is illustrated with photographic sequences. The book also includes allied subjects such as skin care, commonly found skin parasites and basic first aid and handling.

The First-Aid Companion for Dogs & Cats Feb 23 2022 Is there an animal doctor in the house? Most likely, the answer is no. And when an accident or other emergency threatens your pet, every minute counts. Don't be unprepared! Open *The First-Aid Companion for Dogs and Cats* by Amy D. Shojai and learn: * Basic first-aid techniques, such as cleaning a wound, making a splint, and performing CPR--step-by-step! * Which over-the-counter human medications can help--or harm--your dog or cat * What to keep in your pet's medicine chest (many essential items are probably in your house already!) * How to quickly pinpoint what's wrong with your pet, using the *First-Aid Symptom Finder Plus*, you'll discover a comprehensive A-to-Z guide to more than 150 common--and not-so-common--injuries and conditions, including: * Abscesses * Bites from Animals * Car Accidents * Choking * Gunshot Wounds * Heatstroke * Hot Spots * Jellyfish Stings * Poisoning * Snakebites Each at-a-glance entry tells you when to call the vet, which supplies or medications you'll need, what immediate action you should take, and what you should do as follow-up care. By knowing what to do in an emergency and then acting quickly and confidently to take the proper steps, you could save your pet's life. The next time medical help is not quickly available, reach for *The First-Aid Companion for Dogs and Cats*. It's a pet owner's second best friend.

Handbook of Poisoning in Dogs and Cats Jul 27 2019 This handbook will help veterinary clinicians and their staff to manage cases of poisoning in dogs and cats. It will also help answer enquiries about potential poisonings received from concerned pet owners. The content has been compiled from over 15 000 past cases referred to the Veterinary Poisons Information Service - a 24-hour information service for veterinary surgeons. The VPIS experience is compared and contrasted with case data and reports from the literature to provide a comprehensive overview of both toxicity and management for the agents included. Each agent, or group of agents, has a separate chapter covering its effects in either the cat or the dog. In some cases the species information is combined where the clinical effects and management are identical. The chapters provide all the information necessary for the immediate management of a particular poisoning case. This includes doses at which clinical intervention is advisable and dosing regimens and indications for any drug therapy required. Thus the user will be able to access quickly all the information needed for an emergency situation without having to refer to other sources.

Clinical Veterinary Advisor: Dogs and Cats Dec 12 2020 No other quick reference comes close to *Clinical Veterinary Advisor: Dogs and Cats* at providing you with the information you need, when you need it! Common Clinical Presentations in Dogs and Cats Jan 25 2022 Common Clinical Presentations in Dogs and Cats is a reliable resource and quick reference to essential information for diagnosing canine and feline patients, based on presenting complaints. The text takes a problem-oriented approach to recognizing common clinical conditions, and introduces diagnostic and treatment plans for companion animal practice. Equally useful for veterinary students and practicing clinicians, the book presents 78 chapters grouped by body system, for ease of access. Each chapter focuses on identifying the chief complaint, pinpointing possible diagnoses, and determining the clinical approach to patient care. The book is richly illustrated throughout with clinical photographs and line drawings that demonstrate the concepts presented. Common Clinical Presentations in Dogs and Cats is an essential resource that: • Gives clinicians fast access to essential details for approaching common case presentations in dogs and cats and forming a correct diagnosis • Presents information by clinical signs, organized by body system • Takes a standardized chapter format for ease of use • Includes color photographs and line drawings to illustrate the conditions discussed Written for small animal general practitioners and veterinary students, Common Clinical Presentations in Dogs and Cats is a patient-side reference that can help practitioners gain the knowledge and confidence to correctly diagnose a wide range of clinical presentations.

Deafness in Dogs and Cats Jun 25 2019 Deafness in pets is a very common problem and is increasingly being presented to veterinarians, as owners and breeders become more aware and concerned about such issues. This book provides complete coverage of the subject describing the anatomy and physiology of the auditory system, types of deafness, testing for deafness, methods of amelioration and management, behavior of deaf animals, and other issues associated with living and dealing with deaf pets.

The Whole Pet Diet Apr 03 2020 One in four pets is obese, and every year owners spends thousands of dollars treating allergies, joint problems, digestive disorders, and serious diseases that could improve dramatically with a nutritious diet. Yet despite promises of complete and balanced meals, most commercial

pet foods contain chemical preservatives, indigestible fillers, and dangerous by-products. If your pets are overweight, ailing, or aging, or you just want them to be as healthy as possible, *THE WHOLE PET DIET* offers a straightforward plan to achieve lifelong health and well-being. Featuring twenty-five easy recipes for homemade meals and treats, a guide to natural supplements, and practical tips for no-stress grooming and play, this holistic approach to pet care creates optimal health for dogs and cats, and it just might change the way you eat, too.

Frank and Laverne Jan 13 2021 Presented from the individual perspectives of the dog and cat, this story is bound back-to-back and inverted, with two identical title pages.

Homeopathic Care for Cats and Dogs, Revised Edition Jul 07 2020 Most people understand homeopathy as a treatment for people, but as this book shows, our four-legged friends can benefit from it as well. First published in 1999, *Homeopathic Care for Cats and Dogs* quickly became a bestseller and an important resource for anyone looking for a more organic approach to caring for their cats and dogs. Using accessible language, author Don Hamilton gives readers an authoritative overview of animal homeopathy, covering history, treatment principles, homeopathic disease theory, and simple methods for using homeopathic remedies. *Homeopathic Care for Cats and Dogs* offers expert guidance on home care and diet, how to obtain the information needed to choose a homeopathic remedy, how to dose remedies, how to choose the potency, and when to repeat remedies if necessary. The book lists organ systems by chapter, providing concise descriptions of symptoms, including how to evaluate patients' illnesses and when to seek veterinary care. Remedy and supplement suggestions follow disease descriptions. Each section contains the principal remedies needed for treatment. The book ends with a materia medica, which gives more comprehensive remedy information for each medicine listed in the book. This updated edition contains a new chapter on the human-animal relationship, timely information on vaccines, as well as new remedy information in every chapter.

Drawing: Dogs & Cats Nov 30 2019 Cats.

Natural Healing for Dogs and Cats May 17 2021 This invaluable resource tells how to use nutrition, minerals, massage, herbs, homeopathy, acupuncture, acupressure, flower essences, and psychic healing for optimal health. Meticulously researched. Fully illustrated. Comprehensive guide to holistic healing methods. Extensive resource directory. Effective ways to reduce veterinary costs.

Low Stress Handling, Restraint and Behavior Modification of Dogs and Cats Oct 22 2021 Dr. Sophia Yin, author of the *Small Animal Veterinary Nerdbook*, is a veterinarian, applied animal behaviorist, author, and speaker. Her passion for animals and their proper handling and restraint led her to spend hundreds of hours on this project - a new book and instructional DVD set focused on the most humane techniques that reduce stress for people and pets. The book and DVD feature: • More than 1,600 photos that show practicing veterinarians and students how to handle dogs and cats correctly • Explanations of what vets think they're doing right but may actually be doing wrong • Three hours of video clips with voiceover narratives that show correct and incorrect handling procedures By using this training tool, vets will: • Be able to implement the most up-to-date handling techniques • Learn how to restrain animals correctly through behavior modification that does not involve coercion, dominance, or other negative training methods • Increase efficiency because patients will willingly comply with procedures • Stop perpetuating behavior problems in patients • Create a safer environment for themselves and their team with fewer bites, scratches, and back injuries • Improve the bond between vet, pet, and client Published by CattleDog Publishing, USA and distributed by Manson Publishing Ltd.

Obesity in the Dog and Cat Jan 01 2020 3* Doody's Star Rating® CHOICE Magazine 'Recommended' (May 2020) As of 2018, pet obesity in the US affects an estimated 55.8 percent of dogs and 59.5 percent of cats, resulting in secondary conditions such as arthritis, diabetes mellitus, kidney disease, and certain forms of cancer. A complete and balanced diet accompanied by regular exercise is fundamental to optimize health and longevity in companion animals, meaning overweight pets have reduced quality of life and shorter life expectancy. Seeking to address this major modern-day problem, this book provides a comprehensive review of obesity in small animal medicine. Reviews epidemiology and how animal- and human-specific factors contribute to excess weight gain. Discusses the metabolic effects and inflammatory mediators associated with adiposity. Looks at various disease states and how they relate or develop as a result of obesity. Reviews different modalities to determine body composition to diagnose obesity. Offers a clinical approach to managing obesity with diet including discussion on the nutrients of concern for therapeutic weight loss diets. Veterinarians seeking to provide weight management services in practice will find clinically-applicable information from expert authors from both academic and practice backgrounds. Chapters cover topics ranging from epidemiology and pathophysiology of obesity to evaluation of body composition, and nutritional and behavioral management. The book also explores the role of exercise in managing obesity and looks at the management of co-morbidities. Finally, the authors present a range of case studies to demonstrate these topics in real-life practice.

Behavior Problems of the Dog and Cat Mar 03 2020 Formerly the *Handbook of Behavior Problems of the Dog and Cat*, the new edition of the definitive guide to the diagnosis and treatment of behavior problems of the dog and cat has been extensively updated. It retains the highly practical approach that has proved so successful in previous editions, offering diagnostic guidelines, preventative advice, treatment guidelines and charts, case examples, client forms and handouts, and product and resource suggestions along with details on the use of drugs and natural supplements to help optimize the behavior services offered in practice. To add to these features, the third edition is now fully referenced, there is significant new content, the book has been written with the entire hospital team in mind, and many color images have been added. The new edition welcomes a wide international mix of new contributors from Australia, Spain, Mexico and the United States. A website link gives access to the handouts and forms

previously found on disk. As well as fulfilling its original purpose as a practical tool for the busy clinician, this edition offers valuable and useful support material for all those studying the field of companion animal behavior. Now in full color and using a revised format, *Behavior Problems of the Dog and Cat* remains the most complete, up-to-date and practical resource for the treating and diagnosing canine and feline behavior problems. Many hot new topics covered including stress and its effects on health and behavior, and pain assessment and management. Three chapters are added, dealing with canine and feline communication, how to distinguish behavioral versus medical problems, and how to deal with fear and aggression in the clinic. Now thoroughly referenced to the scientific literature. Includes updates on drugs and natural therapeutics. Pain assessment charts now included. All-new color format offers extra illustrations throughout.

Natural Nutrition for Dogs and Cats Apr 27 2022 "In these pages, Kymthy Schultze has provided an excellent nutritional text to help us build a healthier life for our animal friends."— Dr. Stephen R. Blake, Jr., D.V.M. "[This book is] an excellent starting point for us all. Its pages are filled with helpful hints, good advice and most important, logic and common sense."— Dr. Bruce W. Cauble, D.V.M.

Kids will spend hours of fun drawing and then coloring in their new creations. Also included are tips on learning to draw which will help kids meet success!

Nutrient Requirements of Dogs and Cats Dec 24 2021 Updating recommendations last made by the National Research Council in the mid-1980s, this report provides nutrient recommendations based on physical activity and stage in life, major factors that influence nutrient needs. It looks at how nutrients are metabolized in the bodies of dogs and cats, indications of nutrient deficiency, and diseases related to poor nutrition. The report provides a valuable resource for industry professionals formulating diets, scientists setting research agendas, government officials developing regulations for pet food labeling, and as a university textbook for dog and cat nutrition. It can also guide pet owners feeding decisions for their pets with information on specific nutrient needs, characteristics of different types of pet foods, and factors to consider when feeding cats and dogs.
