Common Core Connections Language Arts, Grade 1 Sep 07 2020 Common Core Connections: Language Arts is the perfect tool for helping first grade students master Common Core English Language Arts skills. The Common Core Standards for English Language Arts in first grade focus on many areas including: comprehending text, learning the foundations of spelling, and forming complete sentences using a growing vocabulary. This resource provides focused practice pages for targeting and reinforcing these and other first grade language arts skills while helping students connect comprehension with knowledge and application. Connecting the standards to content has never been easier with the Common Core Connections series for Language Arts. The Common Core Connections series provides teachers with the skill assessments to help determine individualized instruction needs. Focused, comprehensive practice pages and self-assessments guide students to reflection and exploration for deeper learning! Grade specific coherent content progresses in difficulty to achieve optimum fluency. It is also an ideal resource for differentiation and remediation. Each 96-page book includes an assessment test, test analysis, Common Core State Standards Alignment Matrix, and answer key.

The Art Lesson Sep 27 2019 Tommy knows he wants to be an artist when he grows up. He can't wait to get to school and have real art lessons. When Tommy gets to school and finds out that the art lessons are full of "rules", he is surprised and dismayed. How the wise art teacher finds a way to give Tommy the freedom to create and stay within the "rules" makes a wonderfully perceptive picture book about growing up and keeping one's individuality. Tomie dePaola is the author and illustrator of many beloved books for children, including the Caldecott Honor Book Strega Nona. Fans of all ages will be pleased to hear that The Art Lesson is, in fact, based on the artist's own experiences growing up, and offers a welcome glimpse into his past. This bright picture book is as covered with drawings as the walls of Tommy's parents' and grandparents' houses, and sends an inspirational message to budding artists and individualists. Break out the crayons!

ARTistic Pursuits, High School 9-12, Book One Aug 19 2021 This book provides high school students with an in-depth look at the elements of art and composition through a comprehensive text designed to engage them in the creative process as they produce original drawings using graded pencils and charcoal. High school students can begin this book without prior knowledge of art and work independently without the need for parental instruction. The organized content and conversational tone is equally engaging for both the novice and the more experienced art student. Students learn how to see the world like an artist as they are introduced to topics such as space, line, texture, and value. Each unit is crafted for focus on one art element while exploring the topic in four unique ways. Students explore their world in engaging studies designed to strengthen observation skills as they learn about the creative process. The student gains insight about artists and movements in Western art. Art appreciation lessons show how each element is used through the study of art from European masters like Leonardo da Vinci, Durer, Raphael, Tintoretto, and more. Technique and application pages allow skills to develop naturally, as the student works independently. The unique feature of the book is the way students learn from its pages, choose a subject to draw from their own environment, and then easily apply the new information to their own art. Four special assignments show how artists combine elements of art and broaden the student's experiences with art materials. The book provides content for a full credit with the completion of sixty-eight finished drawings in pencil and charcoal media that are both original and entirely the student's own. Upon completing the course, students will be prepared for college art-related course with a thorough knowledge of the foundational principles of art. "Encouragement to create a personal work, rather than copy step-by-step instructions, gives students a sense of accomplishment. ...extremely user-friendly...The introduction of single elements in each lesson makes this program approachable to beginners yet not overly simplistic for more talented students." Homeschool Parent - Heidi Pair / Michigan

The Dot May 04 2020 Features an audio read-along! With a simple, witty story and free-spirited illustrations, Peter H. Reynolds entices even the stubbornly uncreative among us to make a mark -- and follow where it takes us. Her teacher smiled. "Just make a mark and see where it takes you." Art class is over, but Vashti is sitting glued to her chair in front of a blank piece of paper. The words of her teacher are a gentle invitation to express herself. But Vashti can't draw - she's no artist. To prove her point, Vashti jabs at a blank sheet of paper to make an unremarkable and angry mark. "There!" she says. That one little dot marks the beginning of Vashti's journey of surprise and self-discovery. That special moment is the core of Peter H. Reynolds's delicate fable about the creative spirit in all of us.

ARTistic Pursuits, High School 9-12, Book Two Jun 24 2019 This book provides engaging instruction for the high school student who wants to paint and be creative along the way. The organized content and conversational tone is equally engaging for both the novice and the more experienced art student. Students find to their delight that they are asked to select their own subjects to paint as they study topics such as tinting hues, color intensity, complementary hues, balance, rhythm and more. Each unit is crafted for focus on one color theory principle at a time while exploring the topic in four unique ways. Students explore their world in engaging lessons designed to strengthen observation skills as they learn about the creative process in the first lesson of each unit. Art appreciation lessons show how color is used through the study of modern European masters like Van Gogh, Marc, Picasso, and more. Students gain insight about artists and modern movements in Western art. Technique and application lessons allow skills to develop naturally as students work independently without the need for parental instruction. Four special assignments show how artists

Upon finishing the course, students will be prepared for college art-related course with a thorough knowledge of the foundational principles of color in art. "In my art class I had been attempting...and failing...to master watercolors. But when I started this course, I immediately saw improvement. It was great (painting) something that actually applies to my life currently. It made me feel very accomplished!" 16-year-old Homeschool Student - E. McInnis

The Novel: In His Steps Sep 19 2021

Plastic Jan 30 2020 "This eloquent, elegant book thoughtfully plumbs the . . . consequences of our dependence on plastics" (The Boston Globe, A Best Nonfiction Book of 2011). From pacemakers to disposable bags, plastic built the modern world. But a century into our love affair, we're starting to realize it's not such a healthy relationship. As journalist Susan Freinkel points out in this eye-opening book, we're at a crisis point. Plastics draw on dwindling fossil fuels, leach harmful chemicals, litter landscapes, and destroy marine life. We're drowning in the stuff, and we need to start making some hard choices. Freinkel tells her story through eight familiar plastic objects: a comb, a chair, a Frisbee, an IV bag, a disposable lighter, a grocery bag, a soda bottle, and a credit card. With a blend of lively anecdotes and analysis, she sifts through scientific studies and economic data, reporting from China and across the United States to assess the real impact of plastic on our lives. Her conclusion is severe, but not without hope. Plastic points the way toward a new creative partnership with the material we love, hate, and can't seem to live without. "When you write about something so ubiquitous as plastic, you must be prepared to write in several modes, and Freinkel rises to this task. . . . She manages to render the most dull chemical reaction into vigorous, breathless sentences." —SF Gate "Freinkel's smart, well-written analysis of this love-hate relationship is likely to make plastic lovers take pause, plastic haters reluctantly realize its value, and all of us understand the importance of individual action, political will, and technological innovation in weaning us off our addiction to synthetics." —Publishers Weekly "A compulsively interesting story. Buy it (with cash)." —Bill McKibben, author of The End of Nature "What a great read—rigorous, smart, inspiring, and as seductive as plastic itself." —Karim Rashid, designer

Drawing on the Right Side of the Brain Workbook Apr 02 2020 A fully revised and updated edition of the

essential companion to *Drawing on the Right Side of the Brain*--over half of the exercises are new! Millions of people around the world have learned to draw using the methods outlined in Dr. Betty Edwards's groundbreaking *Drawing on the Right Side of the Brain*. In this workbook, the essential companion to her international bestseller, Edwards offers readers the key to truly mastering the art of drawing: guided practice in the five foundational skills of drawing. Each of the forty carefully constructed exercises in this updated second edition is accompanied by brief instruction, sample drawings, ready made formats and blank pages on which to draw, and helpful post-exercise pointers. You will explore wide-ranging subject matter--still life, landscape, imaginative drawing, portraits, and the figure--and gain experience with various mediums, such as pen and ink, charcoal, and Conte crayon. Learning to draw is very much like mastering a sport or a musical instrument: once you understand the basic skills, you must practice, practice, practice. This brilliantly designed and practical workbook from a world-renowned art teacher offers the perfect opportunity to improve your skills and expand your repertoire.
