The Queen's Tale Dec 01 2019 The struggle for the survival of Ireland in the 14th Century An Irish friar scribes the tale of an ancient Irish Queen whose tormented soul is imprisoned in a second century Gaelic brooch, The Golden Harp. The demonic destruction spread by the evil queen's spirit will lead to the death of one of every three individuals in Ireland in the early 14th Century. The Queens Tale chronicles the journey of the brooch as it travels from Ireland into England, then to Scotland, and back again into Ireland, leaving a trail of death and destruction. Two individuals vie for the right to possess the brooch believing it to be a sacred relic of St. Patrick that will protect the one who wears it from all danger. John de Bermingham, the second son of an Irish baron, is first to wear the brooch. He is obsessed with winning an earldom and becoming the English king's justiciar of Ireland. Despising being betrothed to one of the earl of Ulsters daughters, he rescues and falls in love with an Irish princess, deemed unsuitable. Three times he will regain possession of the brooch. Only a sacred rosary given to him by a mysterious Italian Franciscan friar protects his life. Unknown to John, he can defeat the ancient evil in the brooch if he is able to pass four preordained tests in his journey of life. The first is a test of devotion, where he bestows the brooch to an unattainable love. The second is a test of obedience, where he must give up the brooch to a weak king. For the third test he must decline to become a king. In the fourth and final test, he of Anglo-Norman heritage must become more Irish than the native Irish, and unselfishly give up his life for the underserving king. The second to control possession of the brooch is Edward II, King of England. He is weak and easily manipulated by false friends, seeking only wealth and power. He would rather thatch and dig ditches than be king. Married to Isabella of France, he prefers the couch of his male lovers to her. He gives the brooch to three of his favorites, who die violently. He leads England into civil war and the loss of Scotland. Only after being imprisoned, by his queen and her lover, and forced to abdicate, does he grasp and repent his folly. After defeating the English at the battle of Bannockburn, the Scottish King, Robert the Bruce, gives permission to his younger brother, Edward, to invade and conquer Ireland. Edward Bruce leads his army of seasoned Scots into Ireland wearing the Golden Harp Brooch. He had taken it from the slain body of Edward II's favorite nephew at Bannockburn. After three years of Bruce's terror and defeat of defending armies, John de Bermingham steps forward to lead the Anglo-Norman militias of Ireland into the final battle against the never defeated Bruce, whom the native Irish had crowned High King of all Ireland. The historical novel is based on actual historical events and individuals Only the motivations and inner feelings of the main characters are based on the authors imagination. Of the twenty-four characters in the novel, only four are fictional. The opening sequence of the novel starts with a monologue given by the novels narrator, an Irish Dominican monk from Athenry, County Galway, Grey Friars Church, London - 1528 A.D. An Irish Friar speaks. . . Have I gone mad? For the past two days I, Seamus Cassidy, a lowly Dominican priest, have been conversing non-stop in Gaelic with the devil. I am upset and fearful as to why this evil spirit from the depths of hell has chosen to disclose to me an incredible tale which reveals some of the darkest secrets of the fourteenth century. Was the King of England brutally murdered in 1327? Or did the much maligned Edward II escape his intended murders, flee into Ireland, and then later live hidden for the rest of his natural life in Italy? I now possess all the knowledge I need to know to lay

Isabella d'Este and Francesco Gonzaga Dec 13 2020 In the first book systematically to give evidence of conjugal co-rule at an Italian Renaissance court, and the first full length scholarly study of Isabella d'Este and Francesco Gonzaga, Sarah Cockram shows their relationship in an entirely new light. The book draws on (and presents) a large amount of unpublished archival material, including almost unprecedented surviving correspondence between and around these Renaissance princely rulers. Using these sources, Cockram shows Isabella and Francesco's strategic teamwork in action, illuminating tactics of collaboration and dissimulation. She also reveals behind-the-scenes diplomatic activity; court procedures; sexual politics and seduction; gift-giving and network-building; rivalries, intrigues and assassinations. Several epistolary themes emerge: insights into the couple's communication practices and double-dealing, their use of intermediaries, and attention to security matters. This book's analysis of Isabella's co-rule with her husband, supported by other members of the Gonzaga dynasty, sees her sometimes in the role of subordinate partner, sometimes guiding the couple's actions. It shows how, despite appearances at times, the couple shared common diplomatic policy as well as human, material, and cultural resources; joint administration; and the exercise of authority and justice. Thus emerges a three-dimensional picture of the mechanisms of power and power sharing in the age of Machiavelli.

The murder shocked the world, especially because of its setting—Sheridan Circle, in the heart of Washington, D.C. Letelier's widow and her allies immediately suspected the secret police of Chilean dictator Augusto Pinochet, who eliminated opponents around the world. Because U.S. political leaders saw the tyrant as a Cold War ally, they failed to warn him against assassinating Letelier and hesitated to blame him afterward. Government investigators and diplomats, however, pledged to find the killers, defying a monstrous, secretive regime. Was justice attainable? Finding out would take nearly two decades. With interviews from three continents, never-before-used documents, and recently declassified sources that conclude that Pinochet himself ordered the hit and then covered it up, Alan McPherson has produced the definitive history of one of the Cold War's most consequential assassinations. The Letelier car bomb forever changed counterterrorism, human rights, and democracy. This page-turning real-life political thriller combines a police investigation, diplomatic intrigue, courtroom drama, and survivors' tales of sorrow and tenacity.

In Triumph's Wake Feb 12 2021 The powerful and moving story of three royal mothers whose quest for power led to the downfall of their daughters. Queen Isabella of Castile, Empress Maria Theresa of Austria, and Queen Victoria of England were respected and admired rulers whose legacies continue to be felt today. Their daughters—Catherine of Aragon, Queen of England; Queen Marie Antoinette of France; and Vicky, the Empress Frederick of Germany—are equally legendary for the tragedies that befell them, their roles in history surpassed by their triumphant mothers. In *Triumph's Wake* is the first book to bring together the poignant stories of these mothers and daughters in a single narrative. Isabella of Castile forged a united Spain and presided over the discovery of the New World, Maria Theresa defeated her male rivals to claim the Imperial Crown, and Victoria presided over the British Empire. But, because of their ambition and political machinations, each mother pushed her daughter toward a marital alliance that resulted in disaster.
