The Land Rover Story Nov 04 2022 A unique look at the development of the Land Rover, this is the story of the simple four-wheel drive vehicle born out of post-war austerity that became a global byword for toughness and rugged style Launched in 1948, the Land Rover owed its low-key existence to shoestring British ingenuity and—literally—odds and ends left over from World War II. Rover thought it could keep its factory ticking over as the company's post-war fortunes slowly revived. They also thought that farmers might appreciate it as a handy cross between a pick-up and a tractor. But it was soon obvious that the company had created, in the Land Rover, a world-beating product. Giles Chapman tells the story of how Land Rovers have tamed the planet's toughest terrain with their unstoppable off-road capability. It also charts how the Land Rover legend allowed the marque to gradually expand its range with the Range Rover, Discovery, Freelander, and the latest Range Rover Evoque. They're all cars as familiar in cities and suburbs as they are at home in the countryside. Land Rover has been controversial, its fortunes tied to Britain's economic ups and downs. Today it's on a roll, leading a renaissance in British design and manufacturing, yet the continued presence of the Defender helps keep the Land Rover Story absolutely genuine.

The VW Camper Van Jul 28 2019 It was invented immediately after the war, in the factory a far-sighted English military man had set up to turn the German economy from making machines of warfare to more pacific products. By the seventies that dream had been amply fulfilled, as the VW Campervan became the conveyance of choice for West Coast hippies, Australian surf bums and Europeans taking the overland route to find enlightenment and good karma in India. It had also become - indeed, still is - the first choice for any couple, or family, seeking a cheap camping holiday with wheels attached. So never mind the oddly off-centre driving wheel, the vagaries of the aircooled rear engine - the VW Campervan had become more than a vehicle - it had truly become a way of life. Mike Harding's first ride in a Volkswagen Camper Van was back in 1961, when it was the carrying around the gear and bandmembers of his rock band the Manchester Rainmakers. Finally, in 2009, he could wait no longer, and bought his own, a 2001 Type 2 bay window Brazilian import Danbury conversion in hot orange and off white. Add in the endless curiosity of the author of eight monographs on church architecture, and the hilarious sense of humour of one of Britain's best stand-up comics, and you have a wonderful social history of the postwar years through the prism of a single transport icon.

The Ford Capri Story Jun 30 2022 The Story series takes on the development of the Capri Before the Ford Capri arrived in 1969, GT cars had tended to be expensive, temperamental, impractical, and rarefied. Ford decided there was no reason why a four-seater coupe couldn't look stunning and go like a rocket (with the right engine), yet be as easy and cheap to run as a Ford Escort. Little wonder that the slogan they used in 1969 to launch it, "The car you always promised yourself," made an immediate impact. The Capri was a hit from day one, and continued to be a favorite until 1986, at which time it had been somewhat overshadowed by the

emergence of the Hot Hatchback. Over its lifetime, the Capri was available in a vast array of guises over three distinct "Marks," but all of them had at their heart affordable fun and a surprising degree of everyday practicality. Nothing has ever quite replaced it, but it lives on in the fond imagination of everyone who loved it.

Britain's Toy Car Wars Apr 16 2021 For fifty years, Britain made the best toy cars in the world, expertly shrinking every kind of reallife vehicle and producing them in their countless, die-cast millions. Dinky Toys were the 1930s pioneers, then in the 1950s came the pocket-money Matchbox series, followed by Corgi Toys bristling with ingenious features and movie stardust. But who were the driving forces behind this phenomenon? And how did they keep putting the latest, most exciting cars into the palm of your hand year after year? In this illustrated and expanded edition of Britain's Toy Car Wars, Giles Chapman reveals the extraordinary battle to dominate Britain's toy car industry, and the dramas and disasters that finally saw the tiny wheels come off ...

Cars We Loved in the 1950s Mar 04 2020 After the Second World War, cars in Britain were very hard to come by. Most new models had to go for export or were reserved for those drivers who needed them the most, such as doctors. Petrol was still rationed, roads inadequate and modern technology lacking. With the arrival of the 1950s, things slowly began to change: Morris, Austin and Ford put increasing numbers of British families on the road, new sports cars from MG, Jaguar, Triumph and Austin-Healey promised a thrilling drive, and innovative motors such as the Land Rover and the bubble car emerged. By 1958, new car buying was leading a consumer boom, and Britain's manufacturers still had the market to themselves. Giles Chapman investigates the fascinating motoring history of the 1950s.

Cars We Loved in the 1960s Aug 09 2020 A lavishly illustrated celebration of the unique cars of the swinging sixties Vintage car connoisseurs will love this blast back in time to when driving was still fun and buying a new car was a thrilling family event. It was a golden period for iconic classic cars—the Mini Cooper, Jaguar E-type, AC Cobra, and MGB—but also a time when British manufacturers really got their act together with stylish family models. Who can forget great little runabouts with evocative names like Anglia, Herald, Imp, Viva, Cortina, and Hunter? Meanwhile, Rovers, Triumphs, and Jags were delighting executives as they cruised along near-empty motorways. It was too good to last, of course, with regulations looming and fancy foreign cars creeping on to Britain's driveways, but here Giles Chapman recalls all the key cars of the era. This book is richly illustrated with fantastic period photos that bring the 1960s roaring back to life.

Mini May 30 2022 Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000,

revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October, 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

Cars that Time Forgot Jul 08 2020 Not all car models enjoy long reigns like that of the Ford Mustang, the Chevy Corvette, or the Porsche 911. Some models come and go in one selling season, often from poor design, new technological developments, or a shift in the public's fancy. This book investigates more than 100 of these cars that the industry has sped by, including the Bugatti Type 57, the Ford Consul Classic, the Avanti, and many more.

Car Badges May 06 2020 The 'I-Spy' books are the perfect way to keep children entertained whilst learning about the world around them.

The Mini Story Sep 21 2021 Very few cars inspire as much affection as the original Mini. It's the small car everyone loves to eulogise because it oozes energetic fun, classless minimalism and evergreen style. But it's also of massive historical importance: the 1959 Mini, designed by Alec Issigonis, set the template from which all successful compact cars have been created ever after. It was the technological wonder of its age. The original Mini was on sale for 41 years, during which its 5.3m sales made it the best-selling British car of all time - an achievement unlikely ever to be beaten. And just when it looked like the little car would shrivel and die, BMW had the vision to reinvent it as the planet's most desirable small car range, and put it back on the serious motoring map as the MINI. Here, award-winning writer Giles Chapman tells the whole, amazing story.

The Reliant Robin Feb 12 2021 Spanning four decades, the Reliant Robin was a familiar, if eccentric, fixture on Britain's roads; an object of amusement to those who didn't understand its ultra-thrifty ways and a source of pride to the many thousands of owners who did. During a time of deep recession in 1970s Britain, this stylish little car from Tamworth became a massive hit, boasting low fuel consumption and cheap tax. Reliant couldn't make them fast enough, until a culture of more sophisticated car buyers saw it go into eventual decline. From its beginnings in 1973 to its demise almost thirty years later, Giles Chapman traces the colourful history of the most famous and iconic three-wheeled car in Britain.

Driverless Cars: On a Road to Nowhere? Jan 02 2020 Wolmar's entertaining polemic sets out the many technical, legal and moral problems that obstruct the path to a driverless future, and debunks many of the myths around that future's purported benefits.

Girl 43 Sep 09 2020 A powerful and shocking novel inspired by the author's time at the infamous Parramatta Girls' Home. The graffiti on the holding room wall says it all: 'Gunnyah is hell on earth'. And Ellen's about to find out why. Ellen was never the daughter her mother wanted. Patent leather shoes and frilly dresses just weren't her thing and, at age fourteen, she's ready to leave school and find her own way. No one is going to stop her from going where she wants, doing what she wants, and hanging out with Robbie. Or so she thinks. But when the police turn up, Ellen is deemed to be in 'moral danger' and is sentenced to the Gunyah Training School for Girls. Suddenly, she's no longer Ellen, she's Girl 43, and she has to follow the rules, work hard and - most importantly - stay quiet. When it's discovered that she's pregnant, there's no respite from the staff. Told she isn't capable of bringing up a child, they twist the truth to make her cooperate. But however hard they try, they can't destroy the connection between a mother and her child . . . or can they? Drawn from experiences in Parramatta Girls' Home in the seventies, *Girl 43* is a story that could have come straight from today's headlines about the shocking treatment of innocent children and teens by people in the very institutions that were supposed to protect them.

The Ford Transit Story Apr 04 2020 'White Van Man' is a larger-than-life presence on Britain's road, but he's no fool. Given the choice, he inevitably opts for a Ford Transit...and indeed he has been doing so, more than for any other van, for the past 45-plus years. Why? Because the Transit better suits the needs of working drivers than anything else around. Once, vans were mean, narrow, slow and uncomfortable. But in the early 1960s, Ford pooled its European and American experience to create a van that not only did the job - no matter what its final specification, power or payload - but did it with broad-shouldered muscle and a driver-friendly environment. Ford has constantly refreshed the Transit, carefully improving every aspect of it, but has never diminished its totally fit-for-purpose character. And it remains a mainstay of Britain's motor industry, no matter what. Here, award-winning writer Giles Chapman tells the whole, amazing story.

Top Gear: My Dad Had One of Those May 18 2021 Good old Dad and his good old Dad's car. As solid and dependable as the man himself, if a little less balding, Dad's car was almost a member of the family, whisking you to exciting days out, or just to visit boring relatives in distant parts of the country to the chant of 'are we nearly there yet?' Like the man behind the wheel, Dad's car made you feel safe and secure, because it was as reassuring and sensible as he was. Maybe in an idle moment Dad dreamt of driving something rakish and fast, just like in idle moments he dreamt that your Mum was Twiggy, but the demands of family life meant soft tops, hard suspension and anything even remotely sporty were off the cards. Even anything less than four doors would have been wildly hedonistic. But although the family car may not have been the very essence of rock 'n' roll, Dad was proud of it. Spanning the 1950s to the '80s, this is a celebration of the heyday of the Dad car. From much loved family workhorses like the Ford Cortina and Vauxhall Viva to the rakish excitement and playground kudos of the Rover 3500 and Citroen CX, all the great Dad cars are here. Reflecting a time before people carriers and lifestyle off roaders, when the nearest thing to an airbag was hiding behind your fat brother, this is a celebration of simple, honest cars that were as flawed and as loveable as your Dad himself.
