[Men to Avoid in Art and Life](#) Dec 02 2019 Men to Avoid in Art and Life pairs classical fine art with modern captions that epitomize the spirit of mansplaining. This hilarious book perfectly captures those relatable moments when a man explains to a woman a subject about which he knows considerably less than she does. Situations include men sharing keen insight on the female anatomy, an eloquent defense of catcalling, or offering sage advice about horseback riding to the woman who owns the horse. • These less qualified men of antiquity dish out mediocrity as if it's pure genius • For the women who have endured overbearing men over the centuries • Written with hilariously painful accuracy "Now, when you're riding a horse, you need to make sure to keep a good grip on the reins." "These are my horses." Through cringe-induced empathy, this timeless gift book of shared experiences unites women across history in one of the most powerful forms of resistance: laughter. • Started as a Twitter thread and quickly gained widespread popularity. • Makes a perfect book for women and feminists with a wry sense of humor, millennials, anyone who loves memes and Internet humor, as well as history and art buffs. • You'll love this book if you love books like Men Explain Things to Me by Rebecca Solnit, Milk and Vine: Inspirational Quotes from Classic Vines by Emily Beck, and Awards For Good Boys: Tales Of Dating, Double Standards, And Doom by Shelby Lorman.

Artists and Their Books / Books and Their Artists Sep 30 2019 This stunning volume illuminates the current moment of artists' engagement with books, revealing them as an essential medium in contemporary art. Ever innovative and predictably diverse in their physical formats, artists' books occupy a creative space between the familiar four-cornered object and challenging works of art that effectively question every preconception of what a book can be. Many artists specialize in producing self-contained art projects in the form of books, like Ken Campbell and Susan King, or they establish small presses, like Simon Cutts and Erica Van Horn's *Coracle Press* or Harry and Sandra Reese's *Turkey Press*. Countless others who are primarily known as sculptors, painters, or performance artists carry on a parallel practice in artists' books, including Anselm Kiefer, Annette Messager, Ed Ruscha, and Richard Tuttle. *Artists and Their Books / Books and Their Artists* includes over one hundred important examples selected from the Getty Research Institute's Special Collections of more than six thousand editions and unique artists' books. This volume also presents precursors to the artist's book, such as Joris Hoefnagel's sixteenth-century calligraphy masterpiece; single-sheet episodes from Albrecht Dürer's *Life of Mary*, designed to be either broadsides or a book; early illustrated scientific works; and avant-garde publications. Twentieth-century works reveal the impact of artists' books on Pop Art, Fluxus, Conceptualism, feminist art, and postmodernism. The selection of books by an international range of artists who have chosen to work with texts and images on paper provokes new inquiry into the nature of art and books in contemporary culture.

Art and the City Jun 27 2019 Artistic practices have long been disturbing the relationships between art and space. They have challenged the boundaries of performer/spectator, of public/private, introduced intervention and installation, ephemerality and performance, and constantly sought out new modes of distressing expectations about what is construed as art. But when we expand the world in which we look at art, how does this change our understanding of critical artistic practice? This book presents a global perspective on the relationship between art and the city. International and leading scholars and artists themselves present critical theory and practice of contemporary art as a politicised force. It extends thinking on contemporary arts practices in the urban and political context of protest and social resilience and offers the prism of a 'critical artscape' in which to view the urgent interaction of arts and the urban politic. The global appeal of the book is established through the general topic as well as the specific chapters, which are geographically, socially, politically and professionally varied. Contributing authors come from many different institutional and anti-institutional perspectives from across the world. This will be valuable reading for those interested in cultural geography, urban geography and urban culture, as well as contemporary art theorists, practitioners and policymakers.

Boom May 19 2021 The meteoric rise of the largest unregulated financial market in the world-for contemporary art-is driven by a few passionate, guileful, and very hard-nosed dealers. They can make and break careers and fortunes. The contemporary art market is an international juggernaut, throwing off multimillion-dollar deals as wealthy buyers move from fair to fair, auction to auction, party to glittering party. But none of it would happen without the dealers-the tastemakers who back emerging artists and steer them to success, often to see them picked off by a rival. Dealers operate within a private world of handshake agreements, negotiating for the highest commissions. Michael Shnayerson, a longtime contributing editor to *Vanity Fair*, writes the first ever definitive history of their activities. He has spoken to all of today's so-called mega dealers-Larry Gagosian, David Zwirner, Arne and Marc Glimcher, and Iwan Wirth-along with

dozens of other dealers—from Irving Blum to Gavin Brown—who worked with the greatest artists of their times: Jackson Pollock, Andy Warhol, Cy Twombly, and more. This kaleidoscopic history begins in the mid-1940s in genteel poverty with a scattering of galleries in midtown Manhattan, takes us through the ramshackle 1950s studios of Coenties Slip, the hipster locations in SoHo and Chelsea, London's Bond Street, and across the terraces of Art Basel until today. Now, dealers and auctioneers are seeking the first billion-dollar painting. It hasn't happened yet, but they are confident they can push the price there soon.

Bernini and the Art of Architecture Apr 29 2022 The work of Gian Lorenzo Bernini (1598-1680) has virtually defined the Baroque style in the visual arts. Bernini's famous Square of St. Peter's and Scala Regia at the Vatican transformed the forecourt of the basilica and the vestibule of the Papal Palace into breathtaking theatrical sets. While Bernini is famous for his masterly integration of painting, sculpture, and architecture in one site -- in the Chapel of St. Teresa, for example -- most specialists tended to focus exclusively on his sculpture. T.A. Marder is the first to create an extensive narrative considering all of Bernini's architectural achievements and his art at these sites, along with an interpretation of their meaning. Full-color photography specially commissioned for this project shows the sites as they were meant to be seen in the 17th century; these pictures are complemented by relevant drawings and photos of related buildings by other architects. Professor Marder's lively text discusses the political and personal causes that shaped each commission, well as problems of construction, questions of interpretation, and consideration of the sculpture programs in each commission.

The Art of Gathering Sep 10 2020 "Hosts of all kinds, this is a must-read!" --Chris Anderson, owner and curator of TED From the host of the New York Times podcast Together Apart, an exciting new approach to how we gather that will transform the ways we spend our time together—at home, at work, in our communities, and beyond. In *The Art of Gathering*, Priya Parker argues that the gatherings in our lives are lackluster and unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone create meaningful, memorable experiences, large and small, for work and for play. Drawing on her expertise as a facilitator of high-powered gatherings around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with real-world applications. *The Art of Gathering* will forever alter the way you look at your next meeting, industry conference, dinner party, and backyard barbecue--and how you host and attend them.

Teaching Art with Books Kids Love Jun 19 2021 Easy-to-use art lessons with award-winning books.

Posthumous Art, Law and the Art Market May 07 2020 This book takes an interdisciplinary, transnational and cross-cultural approach to reflect on, critically examine and challenge the surprisingly robust practice of making art after death in an artist's name, through the lenses of scholars from the fields of art history, economics and law, as well as practicing artists. Works of art conceived as multiples, such as sculptures, etchings, prints, photographs and conceptual art, can be—and often are—remade from original models and plans long after the artist has passed. Recent sales have suggested a growing market embrace of posthumous works, contemporaneous with questioning on the part of art history. Legal norms seem unready for this surge in posthumous production and are beset by conflict across jurisdictions. Non-Western approaches to posthumous art, from Chinese emulations of non-living artists to Native American performances, take into account rituals of generational passage at odds with contemporary, market-driven approaches. The book will be of interest to scholars working in art history, the art market, art law, art management, museum studies and economics.

Climate Change and the Art of Devotion Feb 02 2020 In the enchanted world of Braj, the primary pilgrimage center in north India for worshippers of Krishna, each stone, river, and tree is considered sacred. In *Climate Change and the Art of Devotion*, Sugata Ray shows how this place-centered theology emerged in the wake of the Little Ice Age (ca. 1550–1850), an epoch marked by climatic catastrophes across the globe. Using the frame of geoaesthetics, he compares early modern conceptions of the environment and current assumptions about nature and culture. A groundbreaking contribution to the emerging field of eco-art history, the book examines architecture, paintings, photography, and prints created in Braj alongside theological treatises and devotional poetry to foreground seepages between the natural ecosystem and cultural production. The paintings of deified rivers, temples that emulate fragrant groves, and talismanic bleeding rocks that Ray discusses will captivate readers interested in environmental humanities and South Asian art history.

The Artist in the Machine Jun 07 2020 An authority on creativity introduces us to AI-powered computers that are creating art, literature, and music that may well surpass the creations of humans. Today's computers are composing music that sounds "more Bach than Bach," turning photographs into paintings in the style of Van Gogh's *Starry Night*, and even writing screenplays. But are computers truly creative—or are they merely tools to be used by musicians, artists, and writers? In this book, Arthur I. Miller takes us on a tour of creativity in the age of machines. Miller, an authority on creativity, identifies the key factors essential to the creative process, from "the need for introspection" to "the ability to discover the key problem." He talks to people on the cutting edge of artificial intelligence, encountering computers that mimic the brain and machines that have defeated champions in chess, Jeopardy!, and Go. In the central part of the book, Miller explores the riches of computer-created art, introducing us to artists and computer scientists who have, among much else, unleashed an artificial neural network to create a nightmarish, multi-eyed dog-cat; taught AI to imagine; developed a robot that paints; created algorithms for poetry; and produced the world's first computer-composed musical, *Beyond the Fence*, staged by Android Lloyd Webber and friends. But, Miller writes, in order to be truly creative, machines will need to step into the world. He probes the nature of consciousness and speaks to researchers trying to develop emotions and consciousness in computers. Miller argues that computers can already be as creative as humans—and someday will surpass us. But this is not a dystopian account; Miller celebrates the creative possibilities of artificial intelligence in art, music, and literature.

The Art of Is Nov 12 2020 A MASTERFUL BOOK ABOUT BREATHING LIFE INTO ART AND ART INTO LIFE "Stephen Nachmanovitch's *The Art of Is* is a philosophical meditation on living, living fully, living in the present. To the author, an improvisation is a co-creation that arises out of listening and mutual attentiveness, out of a universal bond of sharing that connects all humanity. It is a product of the nervous system, bigger than the brain and bigger than the body; it is a once-in-a-lifetime encounter, unprecedented and unrepeatable. Drawing from the wisdom of the ages, *The Art of Is* not only gives the reader an inside view of the states of mind that give rise to improvisation, it is also a celebration of the power of the human spirit, which — when exercised with love, immense patience, and discipline — is an antidote to hate." — Yo-Yo Ma, cellist

Art & Crime Aug 22 2021 A thrilling, eye-popping look at true crime in the billion-dollar art world. The art world is one of the most secretive of global businesses, and the list of its crimes runs long and deep. Today, with prices in the hundreds of millions for individual artworks, and billionaires' collections among the most conspicuous and liquid of their assets, crime is more rampant than ever in this largely unregulated universe. Increased prices and globalization have introduced new levels of fraud and malfeasance into the art world—everything from "artnapping," in which an artwork is held hostage and only returned for a ransom, to forgery and tax fraud. However, the extent of the economic and cultural damage that results from criminality in the global art scene rarely comes to light. The stories of high-stakes, brazen art crimes told by art experts Stefan Koldehoff and Tobias Timm are by turns thrilling, disturbing, and unbelievable (the imagination for using art to commit crimes seems boundless). The authors also provide a well-founded analysis of what needs to change in the art market and at museums. From the authors of *False Pictures*, *Real Money* (about the Beltracchi art forgery case), *Art and Crime* includes a chapter on art owned by Donald Trump. It is a thoroughly researched, explosive, and highly topical book that uncovers the extraordinary and multifarious thefts of art and cultural objects around the world.

The Art of Rivalry Mar 17 2021 Pulitzer Prize-winning art critic Sebastian Smee tells the fascinating story of four pairs of artists—Manet and Degas, Picasso and Matisse, Pollock and de Kooning, Freud and Bacon—whose fraught, competitive friendships spurred them to new creative heights. Rivalry is at the heart of some of the most famous and fruitful relationships in history. *The Art of Rivalry* follows eight celebrated artists, each linked to a counterpart by friendship, admiration, envy, and ambition. All eight are household names today. But to achieve what they did, each needed the influence of a contemporary—one who was equally ambitious but possessed sharply contrasting strengths and weaknesses. Edouard Manet and Edgar Degas were close associates whose personal bond frayed after Degas painted a portrait of Manet and his wife. Henri Matisse and Pablo Picasso swapped paintings, ideas, and influences as they jostled for the support of collectors like Leo and Gertrude Stein and vied for the leadership of a new avant-garde. Jackson Pollock's uninhibited style of "action painting" triggered a breakthrough in the work of his older rival, Willem de Kooning. After Pollock's sudden death in a car crash, de Kooning assumed Pollock's mantle and became romantically involved with his late friend's mistress. Lucian Freud and Francis Bacon met in the early 1950s, when Bacon was being hailed as Britain's most exciting new painter and Freud was working in relative obscurity. Their intense but asymmetrical friendship came to a head when Freud painted

a portrait of Bacon, which was later stolen. Each of these relationships culminated in an early flashpoint, a rupture in a budding intimacy that was both a betrayal and a trigger for great innovation. Writing with the same exuberant wit and psychological insight that earned him a Pulitzer Prize for art criticism, Sebastian Smee explores here the way that coming into one's own as an artist—finding one's voice—almost always involves willfully breaking away from some intimate's expectations of who you are or ought to be. Praise for *The Art of Rivalry* “Gripping . . . Mr. Smee's skills as a critic are evident throughout. He is persuasive and vivid. . . . You leave this book both nourished and hungry for more about the art, its creators and patrons, and the relationships that seed the ground for moments spent at the canvas.”—*The New York Times* “With novella-like detail and incisiveness [Sebastian Smee] opens up the worlds of four pairs of renowned artists. . . . Each of his portraits is a biographical gem. . . . *The Art of Rivalry* is a pure, informative delight, written with canny authority.”—*The Boston Globe*
