Malafrena Jul 26 2019 in a career spanning half a century, Ursula K. Le Guin has produced a body of work that testifies to her abiding faith in the power and art of words. She is perhaps best known for imagining future intergalactic worlds in brilliant books that challenge our ideas of what is natural and inevitable in human relations—and that celebrate courage, endurance, risk-taking, and above all, freedom in the face of the psychological and social forces that lead to authoritarianism and fanaticism. It is less well known that she first developed these themes in richly imagined historical fiction, including the brilliant early novel Malafrena. An epic meditation on the meaning of hope and freedom, love and duty, Malafrena takes place from 1825 to 1830 in the imaginary East European country of Orsinia, then a part of the Austrian Empire, a nation which, like its near neighbors Czechoslovakia, Poland, and Romania, has a long and vivid history of oppression, art, and revolution. Itale Sorde, the idealistic heir to Val Malafrena, an estate in the rural western provinces of Orsinia, leaves home against his father's wishes to work as a journalist in the cosmopolitan capital city of Krasnoy, where he plays an integral part in the revolutionary politics that are roiling Europe. Complete with a newly researched chronology of Le Guin's life and career.

The bad news is that Andrew doesn't remember anything his grandfather taught him. Chaos is swiftly rising, and he has no idea how to control it. A sinister neighbor is stealing power from the land, magic is leaking between realms . . . and it's only a matter of time before the Stalkers find Aidan. If Aidan and Andrew can harness their own magics, they may be able to help each other. But can they do it before the entire countryside comes apart at the seams?

Year of the Griffin Mar 14 2021 It is eight years after the tours from offworld have stopped. High Chancellor Querida has retired, leaving Wizard Corkoran in charge of the Wizards' University. Although Wizard Corkoran's obsession is to be the first man on the moon, and most of his time is devoted to this project, he decides he will teach the new first years himself in hopes of currying the

favor of the new students' families—for surely they must all come from wealth, important families—and obtaining money for the University (which it so desperately needs). But Wizard Corkoran is dismayed to discover that one of those students—indeed, one he had such high hopes for, Wizard Derk's own daughter Elda—is a huge golden griffin, and that none of the others has any money at all. Wizard Corkoran's money-making scheme backfires, and when Elda and her new friends start working magic on their own, the schemes go wrong still. And when, at length, Elda ropes in her brothers Kit and Blade to send Corkoran to the moon . . . well . . . life at the Wizards' University spins magically and magnificently out of control.
